

A woman with short dark hair, wearing a yellow tank top and a light blue cardigan, is sitting on a white wicker lounge chair on a modern patio. She is holding a yellow garden hose. The patio is surrounded by various potted plants, including a large potted plant to her left and a smaller one to her right. In the foreground, a yellow and black Claber hose reel is on a green lawn. The background shows a modern building with large windows and a balcony. The overall scene is bright and sunny, with a green overlay on the right side of the image.

GARDENLIFE  
2023

#### A FUTURE YET TO BE WRITTEN, NOW

We have long regarded nature as an inexhaustible source of elements, energy and beauty, averting our gaze from the fragile balance that has been lost. Climate change is no longer a matter of warning signs but is made up of hard evidence: a window on the future.

Another window offers a different perspective: onto the world that could be, and will be, if we will go on in giving voice to environmental concerns, to a culture of compassion and respect for nature.

A big change made up of small actions and practices that don't need much effort, just a sense of responsibility. Now, more than ever, Claber is constantly driven by its commitment: projects, investments and attention to every little detail to manage the transition into an industry that is not just ecologically sustainable but is also serving the environment. This is the window through which we are looking at the future.

# THE NEW WELLNESS IS CALLED HOME

GREEN THINKING  
New Trends

How the ways of living change nowadays when the home becomes the centre of our lives.

THE BEAUTY  
OF FUNCTIONALITY

01

## THE ROLE OF DESIGN

Technology is simplifying life, beauty is adding harmony to our souls. Design, which perfectly combines aesthetics and function, is the key that opens up a new way of living and it will increasingly take centre stage in our homes.

**Style and practicality for watering small spaces?  
Discover the new Rototoll 10m (pag. 61)**

GREEN SPACES  
TO ENJOY

02

## RETHINK GREEN SPACES

At last it is time to rediscover the pleasure of sharing our spaces with friends again.  
The ideal place for evenings with friends?  
A well-organised garden, with pieces of furniture that perfectly complement each other, lighting designs and, above all, a growing, luxuriant lawn.

**Underground watering is an easy solution and tailored to modern gardens with Hydro-4 (page 140)**

### 03

## ETHICAL PLEASURE

Reducing the impact on the environment and limit the water consumption will become increasingly important, starting from our homes, making them more comfortable and full of plants.

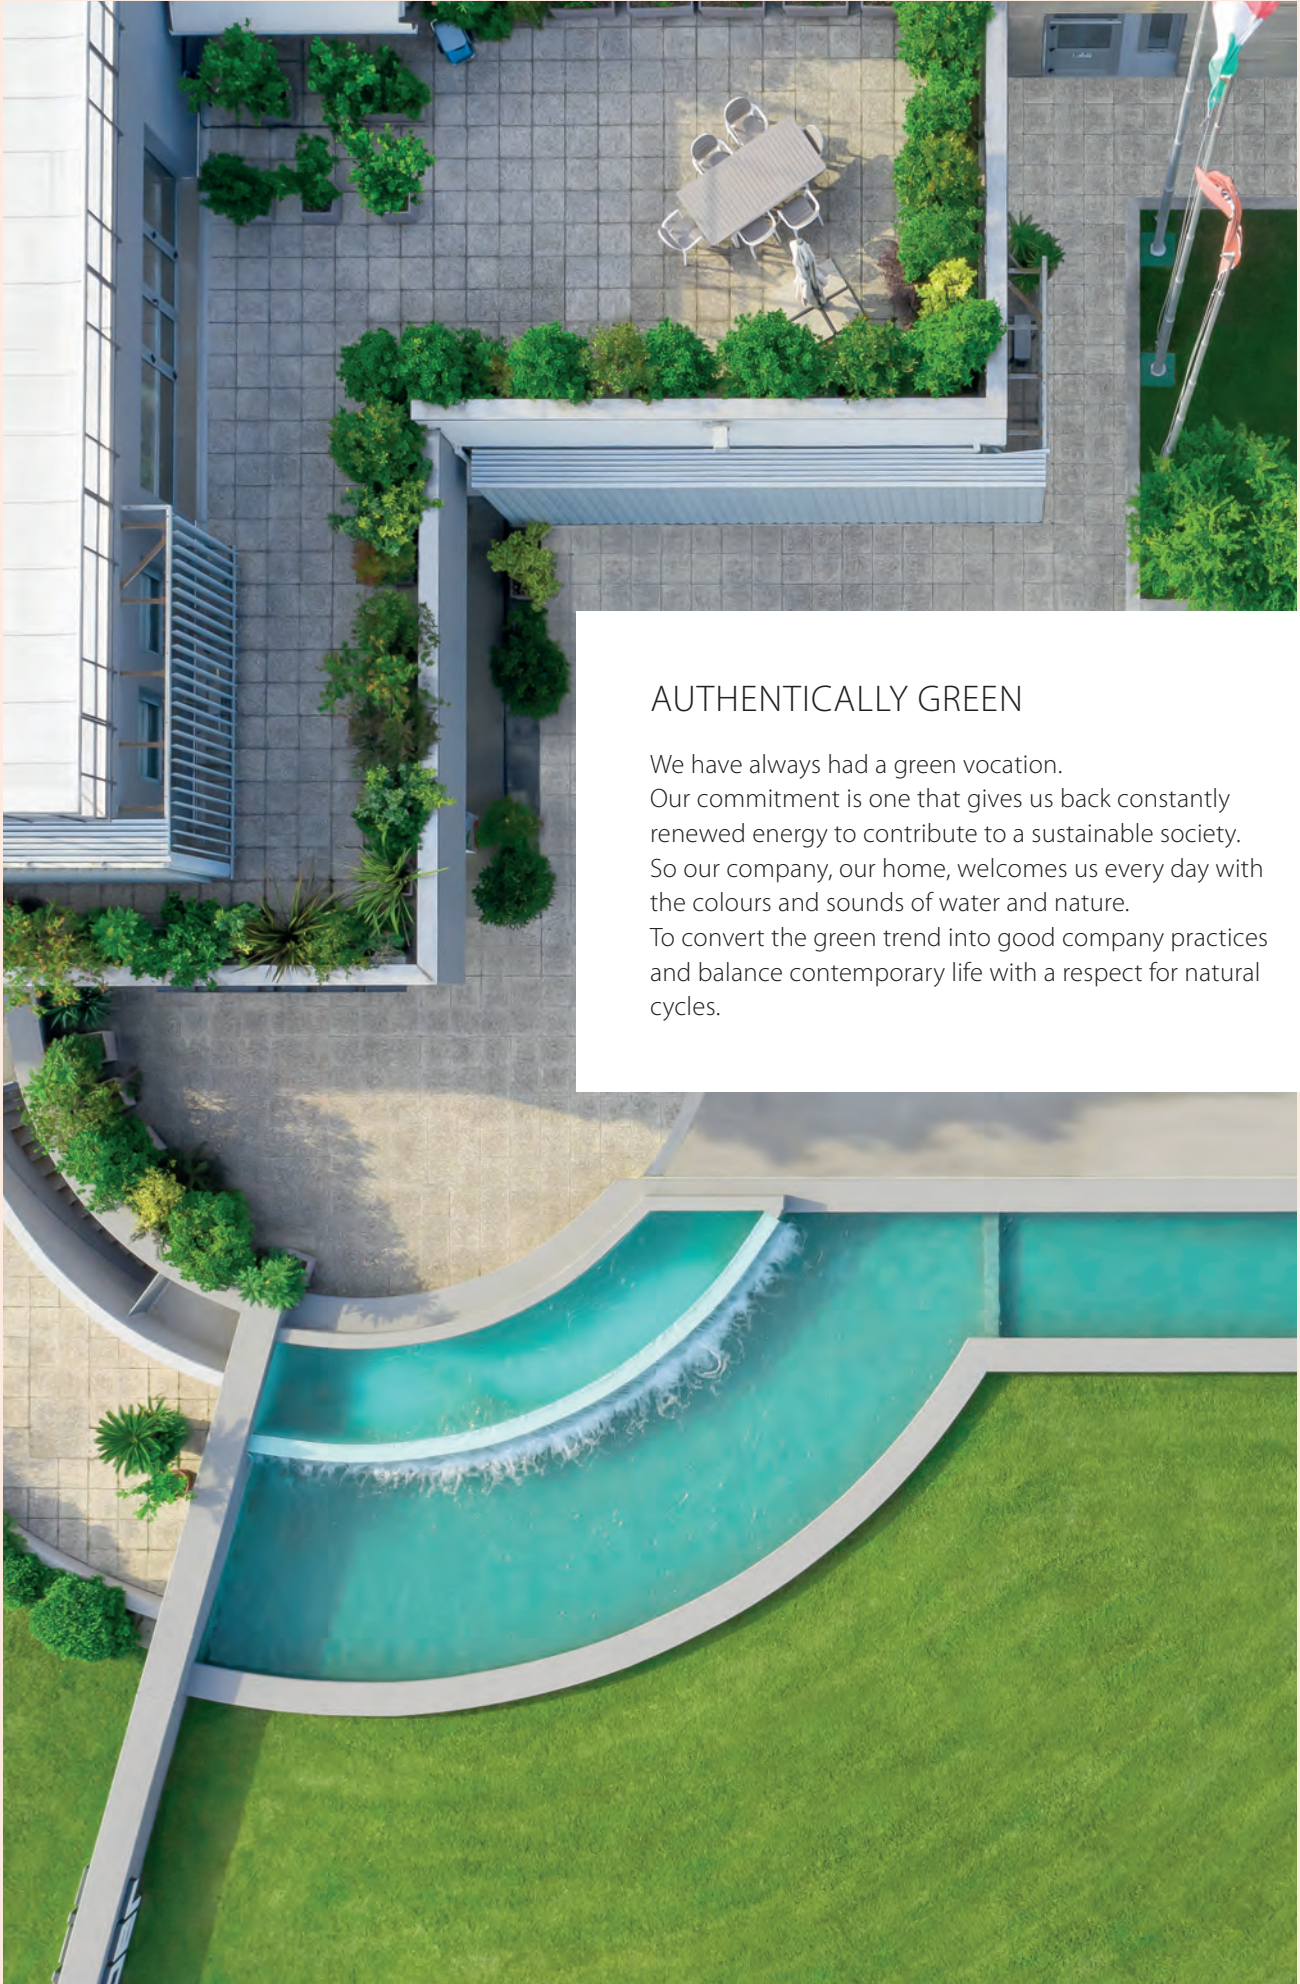

Watering correctly and wisely combines the pleasure to the respect for the environment.

**For an ethical irrigation that works particularly well in case of drought, choose Claber Drip kits (page 116)**

PLANTS THE LEADERS OF THE NEW  
LIVIGN CONCEPT

## AUTHENTICALLY GREEN

We have always had a green vocation. Our commitment is one that gives us back constantly renewed energy to contribute to a sustainable society. So our company, our home, welcomes us every day with the colours and sounds of water and nature. To convert the green trend into good company practices and balance contemporary life with a respect for natural cycles.

# CLABER'S SUSTAINABLE PLACES

## THE WATER ACADEMY

Making a company, culture and nature. Amidst the green waters of a river that passes through the Friulian countryside we discovered a disused hydroelectric station. We brought it back to its full glory and today it generates clean energy and adds value to the area. The Water Academy means a thousand things to us, but the first is that we are able to use nature responsibly, giving and receiving without exploiting. It's somewhere for company activities to take place, reminding us of the importance of working with integrity and awareness. And also a place for cultural experiences, for teaching, welcoming and including. The power station produces energy, regulates the flow of water and follows nature's lead in a context of harmony and balance.

## GOOD PRACTICES

Our whole history is our commitment to creating a business that is environmentally aware.

An idea that runs through every phase of our work and is translated into concrete actions and results. We have greatly reduced the company's basic requirements and energy consumption through advanced production systems, LED lighting, the installation of photovoltaic panels and water recovery systems.

We pay great attention to the quality of raw materials and are pioneers in the use of eco-sustainable, fully recyclable materials, such as FSC cardboard packaging and 100% recyclable PET shells.

And even before this, we work on education and popularising a culture of respect for nature and people.

Those who work with Claber fully embrace the conviction that everyone can contribute, every day, with small and large steps, to improve the environment, their own life and that of other people.

The future is ever greener with Claber.

# BEAUTIFUL, SMART, VERY GREEN: THIS IS THE NEW CLABER PACKAGING

Claber has fully embraced the values of the circular economy, by setting some ambitious targets and by putting in practise some structured actions, such as the big innovations in its packaging.

Starting with the new display stands in FSC cardboard and 70% recycled materials that are environmentally

friendly, beautiful to look at and designed to make it even easier to find the ideal product while also offering the best compatibility with other Claber items.

The evolution continues with the new packaging where plastic is replaced by environmentally friendly materials and some smart, creative solutions.

To make customer's life easier, there are new dispensers for loose products and the labels will show new, bright, even clearer graphics.

Once again Claber is confirming that it can stand out, that it respects nature and cares about people.

FSC CARDBOARD  
AND 70% RECYCLED  
MATERIALS, BECAUSE  
WE LOVE NATURE.

CLEARER AND MORE  
EFFECTIVE INFORMATION.

Bright and distinctive,  
clear to follow, made  
of eco-friendly materials:  
Get ready for the new  
Claber packaging!

A woman with curly hair, wearing a light green button-down shirt, is watering a garden. She is holding a hose that sprays water, creating a misty effect. In the foreground, a large white flower with many small petals is in focus. The background shows green foliage and a clear blue sky.

## ABOVE-GROUND IRRIGATION

### WATERING IS A REAL PLEASURE

Everyone can find the right solution for their needs with Claber's extensive above-ground irrigation range.

The pistols and spray nozzles not only have a cutting-edge design, but they are also efficient and comfortable to hold, made of materials that guarantee perfect grip.

The sprinklers are lightweight yet sturdy, designed to last over time and handy to adjust.

This makes them perfect for any garden or green space. Our hoses are made of first choice materials and can be used with our extensive range of hose reels, helping you move freely around your garden.

Our automatic couplings, easy-to-install in a quick click, meet all the most common connection needs, ensuring no water waste.

Claber products not only look great, but are also handy and easy to use, making watering a relaxing and enjoyable experience.

Give value to the time you  
spend in the garden

Choose technology, without  
compromising on style

#### A MATTER OF STYLE

Convenience, the choice of different jet patterns, quality materials and a unique design: the wide range of spray nozzles and pistols perfectly represents Claber unmistakable Made in Italy style.

#### CONNECTING UP

Much more than just simple connectors and couplings. In addition to being the most comprehensive and universal range of products, Claber range stands out for the work that has been done on such a small yet vitally important accessory, for perfect irrigation with no wasted water.

#### WHEN EVERYTHING TURNS OUT RIGHT

Practical, lightweight and sturdy, Claber hose reels and carts have one sole purpose: making your life in the garden easier every day.

#### AN AQUATIC DELIGHT

Static, rotating, oscillating and pulsating sprinklers guarantee perfectly calibrated and even irrigation across the lawn, creating pleasant water patterns with a light rain effect.

## A PRECIOUS MOMENT

Watering your flowers, lawn or vegetable patch first thing in the morning, or as the sun goes down in the evening. The smell of wet grass. Droplets of water sliding off the leaves, forming little streams on the ground. These are invaluable everyday moments that Claber helps you treasure with its range of products.

# TAP CONNECTORS QUICK-CLICK® SYSTEM

Claber's answer to all of your tap connection needs: threaded with different diameters, smooth or with an aerator. The Quick-Click system is the easy way to connect up your watering hoses to all standard outdoor and indoor taps in one quick click! Claber's high quality materials guarantee resistant and long-lasting connectors. Universally compatible!

## 1/2" (15-21 mm) THREADED TAP CONNECTOR

**8622**

**8623**

To connect automatic Quick-Click couplings to a threaded tap by simply screwing it on. Female 1/2" (15-21 mm) thread. It is complete of washer.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
8622		50	2,9 x 4,0 x 2,9	10 x 39 x 13	0,005	0,67	6400	8 000625 086221
8623		14	7,9 x 15,7 x 3,5	25 x 19 x 10	0,005	0,37	2016	8 000625 086238

## 3/4" (20-27 mm) THREADED TAP CONNECTOR

**8626**

**8627**

To connect automatic Quick-Click couplings to a threaded tap by simply screwing it on. Female 3/4" (20-27 mm) thread. It is complete of washer.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
8626		100	3,5 x 4,1 x 3,5	20 x 39 x 13	0,010	1,48	7200	8 000625 086269
8627		14	7,9 x 15,7 x 3,5	25 x 19 x 10	0,005	0,40	2016	8 000625 086276

## 1" (26-34 mm) THREADED TAP CONNECTOR

**8628**

**8629**

To connect automatic Quick-Click couplings to a threaded tap by simply screwing it on. Female 1" (26-34 mm) thread. It is complete of washer.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
8628		100	4,2 x 4,1 x 4,2	20 x 39 x 13	0,010	1,78	7200	8 000625 086283
8629		12	7,9 x 15,7 x 4,3	25 x 19 x 10	0,005	0,50	1728	8 000625 086290

## MULTI THREADED TAP CONNECTOR 1/2" (15-21 mm) - 3/4" (20-27 mm)

**8591**

**8804**

To connect automatic Quick-Click couplings to a threaded tap by simply screwing it on. Female 3/4" (20 - 27 mm) thread and 1/2" (15 - 21 mm) adaptor. It is complete of washer.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
8591		100	3,5 x 4,8 x 3,5	20 x 39 x 13	0,010	2,10	7200	8 000625 085910
8804		14	7,9 x 15,7 x 3,5	25 x 19 x 10	0,005	0,48	2016	8 000625 088041

### MULTI THREADED TAP CONNECTOR 1" (26-34 mm) - 3/4" (20-27 mm)

**8595****8803**

To connect automatic Quick-Click couplings to a threaded tap by simply screwing it on. Female 1" (26-34 mm) thread and 3/4" (20 - 27 mm) adaptor. It is complete of washer.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
8595		40	4,2 x 4,8 x 4,2	10 x 39 x 13	0,005	1,14	5120	8 000625 085958
8803		12	7,9 x 15,7 x 4,3	25 x 19 x 10	0,005	0,50	1728	8 000625 088034

### DOUBLE TAP CONNECTOR

**8598****8599**

To connect 2 hoses at the same time to the tap. Includes on/off valves and washer. Easy attachment by simply screwing on. With female 3/4" (20 - 27 mm) thread and a reducer to 1/2" (15 - 21 mm) thread.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
8598		25	11,1x8,3x5,2	20 x 39 x 13	0,010	2,32	1800	8 000625 085989
8599		8	15,4 x 24 x 6	28 x 25 x 19	0,013	1,20	384	8 000625 085996

### 3/4" (20 - 27 mm) MALE THREADED TWO-WAY ADAPTER

**8590****8589**

For taps with 3/4" (20 - 27 mm) thread. Includes on/off valves and washer. Enables assembly of two water timers, pressure reducers, etc.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
8590		8	14,6 x 9,7 x 5,7	20 x 39 x 13	0,010	1,60	576	8 000625 085903
8589		5	15,4 x 24 x 5,6	28 x 25 x 19	0,013	1,31	240	8 000625 085897

### 4 OUTLETS DISTRIBUTOR

**8580****8581**

Converts one water tap into four outlets, each separately controlled, enabling different areas to be watered. For taps with 3/4" (20 - 27 mm) thread.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
8580		8	18,3 x 11 x 5,8	20 x 39 x 13	0,010	2,06	576	8 000625 085804
8581		5	16 x 30 x 5,5	18,5 x 25 x 36	0,016	1,60	240	8 000625 085811

### 1" F (26-34 mm) 3/4" M (20-27 mm) ADAPTER

**8509**

Converts the 3/4" (20 - 27 mm) female tap connector into a 1" (26 - 34 mm) female tap connector.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
8509		12	7,9 x 15,7 x 3,0	25 x 19 x 10	0,005	0,40	1728	8 000625 085095

## CONNECTORS

Practical connectors that last.

The Quick-Click connectors offer the best in terms of practicality and durability. They are resistant to knocks, weathering and UVA rays, as well as to high pressure. The spring inside – patented by Claber – withstands up to 1.5 million clicks without breaking.

They also offer excellent compatibility as they have a standard pitch used around the world.

# QUICK-CLICK® SYSTEM JUST ONE SIMPLE CLICK

## TAP CONNECTORS

Connect up in a flash

EASY TO USE

ULTRA-RESISTANT MATERIALS

FOR ALL TAP TYPES

**3/4" (20-27 mm) QUICK-FIT  
TAP CONNECTOR****8587**

3/4" (20-27 mm) indoor tap connector to attach a hose with a tap in the kitchen or bathroom. For taps with 22 mm male or 24 mm female thread. Connection with quick release lever clamp mechanism. Complete with metal filter-aerator and adapter. Quick-Click coupling. Fully watertight connection.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
8587		10	7,9 x 15,7 x 4,3	25 x 19 x 10	0,005	0,75	1440	8 000625 085873

## 3/4" AUTOMATIC COUPLING

**8608****8609**

Automatic coupling for 3/4" hoses (Ø 19 mm).

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
8608		50	4,2 x 6,6 x 4,2	20 x 39 x 13	0,010	2,03	3600	8 000625 086085
8609		12	7,9 x 15,7 x 4,5	25 x 19 x 10	0,005	0,65	1728	8 000625 086092

NEW FOR 2023

**1/2" AUTOMATIC COUPLING  
W / AQUASTOP****9026**

Automatic coupling with Aquastop for Ø 9-13 mm hose.  
Compatible with:  
- Spiral Kit (9034) and Spiral Kit Plus (9338)  
- Mini-Set Balcony (9031), Garden (9032) and Utility (9028)  
- Starter Garden-Set (9053).

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
9026		10	7,9 x 15,7 x 3,5	25 x 19 x 10	0,005	0,60	1440	8 000625 090266

**1/2" AUTOMATIC COUPLING  
W / AQUASTOP****8602**

Automatic coupling for 1/2" (Ø 12,5 mm) hoses with aquastop valve.  
Inserted at the end of the hose, water flow is interrupted by disconnection of male piece.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
8602		50	3,5 x 5,8 x 3,5	20 x 39 x 13	0,010	1,71	3600	8 000625 086023

**5/8" AUTOMATIC COUPLING  
W / AQUASTOP****8566**

Automatic coupling for 5/8" (Ø 15 mm) hoses with aquastop valve.  
Inserted at the end of the hose, water flow is interrupted by disconnection of male piece.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
8566		50	3,8 x 6,0 x 3,8	20 x 39 x 13	0,010	1,83	3600	8 000625 085668
8567		12	7,9 x 15,7 x 4,2	25 x 19 x 10	0,005	0,60	1728	8 000625 085675

**3/4" AUTOMATIC COUPLING  
W / AQUASTOP****8604**

Automatic coupling for 3/4" (Ø 19 mm) hoses with aquastop valve.  
Inserted at the end of the hose, water flow is interrupted by disconnection of male piece.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet

# ERGOGRIP® SYSTEM

The Ergogrip System tap connectors and automatic couplings are the result of Claber research: offering the very best when it comes to harmonious lines, ergonomics and ease of use, thanks to the rubber surface which always ensures a perfect grip. Ergogrip System meet any connection requirement for hoses with different diameters, and the standard pitch makes it compatible with tap connectors and automatic couplings used around the world. The spring inside the couplings withstands up to 1.5 million clicks without breaking, and is not damaged by water. The perfect solution for those with the most demanding needs. Ideal for use with Confort pistols.

## TAP CONNECTOR 1/2" (15-21 mm) - 3/4" (20-27 mm)

8556

8557

Universal tap connector with 1/2" (15-21 mm) and 3/4" (20-27 mm) thread with gaskets for a perfectly watertight seal.  
Male connector for connecting all automatic couplings.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
8556		50	3,9 x 4,8 x 3,9	10 x 39 x 13	0,005	1,00	6400	8 000625 085569
8557		12	7,9 x 15,7 x 4,2	25 x 19 x 10	0,005	0,39	1728	8 000625 085576

## TAP CONNECTOR 3/4" (20-27 mm) - 1" (26-34 mm)

8558

8559

Universal tap connector with 3/4" (20-27 mm) and 1" (26-34 mm) thread with gaskets for a perfectly watertight seal.  
Male connector for connecting all automatic couplings.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
8558		40	8 x 4,75 x 8	10 x 39 x 13	0,005	0,97	5120	8 000625 085583

## MENDER 1/2"

8560

8561

For repairing a damaged garden hose or for connecting two coils of hose of the same diameter.  
For hoses with 1/2" (12,5 mm) diameter.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
8560		30	3,6 x 5,6 x 3,6	10 x 39 x 13	0,005	0,93	3840	8 000625 085606
8561		12	7,9 x 15,7 x 4,2	25 x 19 x 10	0,005	0,51	1728	8 000625 085613

## UNIVERSAL MENDER 1/2" - 5/8" - 3/4"

8564

8565

For repairing a damaged garden hose or for connecting two coils of hose, even with different diameters.  
For hoses with 1/2" - 5/8" - 3/4" diameter.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
8564		40	7,2 x 4,3 x 8	20 x 39 x 13	0,010	2,00	2880	8 000625 085644
8565		10	7,9 x 15,7 x 4,5	25 x 19 x 10	0,005	0,62	1440	8 000625 085651

## COUPLING 1/2" - 5/8"

**8542**

**8543**

"Ergogrip" automatic coupling for hoses with 1/2" (12,5mm) - 5/8" (15 mm) diameter. Special rubber-covered surface for a perfect grip. Rustproof (no metal parts) and shockproof, it is resistant to the elements, UV rays and very high pressures, up to 40 bar.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
8542		50	8 x 6 x 8	20 x 39 x 13	0,010	1,82	3600	8 000625 085422
8543		12	7,9 x 15,7 x 4,2	25 x 19 x 10	0,005	0,57	1728	8 000625 085439

## UNIVERSAL COUPLING 1/2" - 5/8" - 3/4"

**8546**

**8547**

"Ergogrip Universal" automatic coupling for hoses with 1/2" (12,5 mm) - 5/8" (15 mm) - 3/4" (19 mm) diameter. Special rubber-covered surface for a perfect grip. Rustproof (no metal parts) and shockproof, it is resistant to the elements, UV rays and very high pressures, up to 40 bar.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
8546		40	8 x 6,8 x 8	20 x 39 x 13	0,010	1,82	2880	8 000625 085460
8547		10	7,9 x 15,7 x 4,5	25 x 19 x 10	0,005	0,57	1440	8 000625 085477

## COUPLING 1/2" - 5/8" W/AQUASTOP

**8544**

**8545**

"Ergogrip" automatic coupling for hoses with 1/2" (12,5 mm) - 5/8" (15 mm) diameter. Special rubber-covered surface for a perfect grip. Rustproof (no metal parts) and shockproof, it is resistant to the elements, UV rays and very high pressures, up to 40 bar. Features automatic water shut-off valve - inserted at the end of the hose, water flow is stopped when the coupling is disconnected.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
8544		25	8 x 6 x 8	10 x 39 x 13	0,005	0,95	3200	8 000625 085446

# SPRAY NOZZLES AND PISTOLS

These Claber spray nozzles and pistols are ergonomic and practical to use, and the product line is constantly being developed. The unique design of the Pro and Plus spray nozzles means you can adjust the jet with one hand, and the ergonomic grip on the Ergo pistols is comfortable and easy to hold. The Elegant line allows you to water small green spaces consuming less water, with jets designed to prevent water or soil splashes. For those who settle for nothing but the best, there's the Confort line: a rubber grip for perfect hold, even with wet hands; a practical button for turning the water flow on or off using your finger; and a valve at the back for adjusting the flow rate. A rubber-coated cap and ring nut are also included, and there are models available in metal for the utmost sturdiness.

## ELEGANT LINE

Practical is stylish

## CONFORT PISTOLS

Top-class ergonomics

CHROME-PLATED  
METAL

RUBBER RING NUT

ADJUSTABLE  
FLOW RATE

OPEN/CLOSE BUTTON

PERFECT GRIP

## PRECISION CONFORT

**9561**

Spray pistol with new anatomical rubber grip and convenient front on-off flow button. Knob at rear adjusts strength of water jet. Cap with rubber lining for protection against impact. Water flow can be adjusted as required, from completely closed (concentrated) to completely open (fan spray).

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
9561		3	18 x 24,5 x 40	25 x 19 x 10	0,005	0,75	432	8 000625 095612

## METAL - JET CONFORT

**9567**

Spray pistol with resistant, inalterable chrome metal components, new anatomical rubber grip and convenient front on-off flow mechanism. Metal knob at rear adjusts strength of water jet. Pistol body is rubber lined for protection against impact. Water flow can be adjusted as required, from completely closed (concentrated) to completely open (fan spray).

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet

## BALCONY CONFORT

**9565**

Shower pistol with aerator, new anatomical rubber grip and convenient front on-off flow button. Knob at rear adjusts strength of water jet. Rubber lined lock nut for protection against impact, for easy opening, inspection and cleaning of pistol. The aerator (also removable for easy cleaning) assures a gentle jet of water mixed with bubbles, ideal for watering potted plants.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
9565		3	17 x 24,5 x 6,4	25 x 28 x 13	0,009	0,91	216	8 000625 095650

## MULTI - JET CONFORT

**9563**

Multifunction pistol with new anatomical rubber grip and convenient front on-off flow button. Knob at rear adjusts strength of water jet. Rubber lined lock nut for protection against impact, for easy opening, inspection and cleaning of pistol. Rotate the nut for four different flow types: shower, concentrated, fan spray and mist.

## STARTER SET 1/2"

**8551**

Containing:  
- tap connector 3/4" (20-27 mm) and reducer 1/2" (15-21 mm),  
- automatic couplings 1/2" with and without aquastop,  
- Ergo spray pistol.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
8551		6	16 x 24 x 5	28 x 25 x 19	0,013	1,70	288	8 000625 085514

## ERGO SHOWER PISTOL

8541

Spray pistol with practical ergonomic grip.  
Shower jet open and fine spray.  
Water flow adjustment lever.  
Jet lock device, stainless steel perforated disk.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
8541		4	17,5 x 21 x 6	25 x 19 x 10	0,005	0,74	576	8 000625 085415

## GARDEN SPRAY PISTOL

9373

The multifunction Garden spray pistol allows to water the garden with a wider range of flows: from all concentrated to soft fan, wise, gentle mist, shower spray, soaker. Fingertip pressure control water button.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
9373		5	12 x 18 x 7	25 x 28 x 13	0,009	0,90	360	8 000625 093731

## ERGO-GARDEN SPRAY PISTOL

9391

Multi-Jet spray pistol with practical ergonomic grip.  
Rotate the pistol head for different jets: from jet to soft fan wise, gentle soaker, shower and aerator spray (jet mixed with air bubbles).  
Very useful for watering potted plants.  
Selector device and lock for required jet.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
9391		8	15,5 x 21 x 7,85	25 x 28 x 13	0,009	1,60	576	8 000625 093915

## FAN SPRAY

8917

Fine, soft, gentle spray.  
Non slip handle grip with regulating valve on handle.  
Rustproof metal shower head plate.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
8917		4	15,4 x 24 x 6,15	25 x 28 x 13	0,009	0,70	288	8 000625 089178

## LONG FAN SPRAY

8922

Fine, soft, gentle spray, non slip handle grip with regulating valve on handle.  
Rustproof metal shower head plate.  
With long aluminium extension.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
8922		2	16 x 69 x 6	20 x 77 x 10	0,012	0,74	96	8 000625 089222

## ELEGANT DUAL JET PISTOL

**9081**

Lightweight and compact pistol with dual jet: concentrated or fan spray. Ideal both for watering plants and for washing.

Ergonomic grip.

Handy front-mounted push-button mechanism for controlling and shutting off the water flow. 2 flow settings.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet	
9081		4	15 x 19,5 x 3	25 x 19 x 10	0,005	0,50	576	8 000625 090815

## ELEGANT MULTIFUNCTION NOZZLE 5 JETS

**9089**

Lightweight and compact multifunction spray nozzle.

Turn the head for 5 jets: shower, concentrated, mist, cone and flat (+ 1 OFF).

Quick-Click connection.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet

## PRO SPRAY NOZZLE

**8534**

**8535**

Nozzle with adjustable jet: from closed to open (jet or fan spray), by rotating the ergonomic cap of the nozzle.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet	
8534		15	4 x 17,5 x 4	10 x 39 x 13	0,005	1,21	1920	8 000625 085347
8535		5	15,4 x 24 x 3,5	28 x 25 x 13	0,009	0,70	360	8 000625 085354

## PLUS SPRAY NOZZLE

**8536**

**8537**

Nozzle with adjustable jet: from closed to open (jet or fan spray). Water flow regulation by turning the knob valve.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet	
8536		15	4 x 17,9 x 4	10 x 39 x 13	0,005	1,32	1920	8 000625 085361
8537		5	15,4 x 24 x 4,3	28 x 25 x 13	0,009	0,71	360	8 000625 085378

# AQUAMASTER

The main feature of the new range of Aquamaster connectors and accessories is their distinctive large diameter. Designed for 3/4" and 1" hoses, they ensure that more water can pass through, supporting high pressures. Ideal for professional applications such as agriculture and construction, the Aquamaster range is often the best solution in the garden, too: from its use with suction pumps to hoses of a longer length. It offers a high flow rate and a tight seal, thanks to the Safety-Lock rapid coupling technology.

## AQUAMASTER

High flow rate and tight seal

CREATED FOR  
LARGE DIAMETER HOSES

HIGH FLOW RATE  
TESTED UP TO 10 BARS

INNOVATIVE SAFETY-LOCK  
TECHNOLOGY

TIGHT SEAL  
AND EASY COUPLING

1" - 3/4" MAX-FLOW  
TAP CONNECTOR

9641

Multi-threaded tap connector to attach a line with Max-Flow couplings to the tap. It is complete of washer. Female 1" (26 - 34 mm) thread and 3/4" (20 - 27 mm) adaptor.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet	
9641		8	7,9 x 15,7 x 4,2	25 x 19 x 10	0,005	0,43	1152	8 000625 096411

1"1/4 - 1" MAX-FLOW TAP  
CONNECTOR

9655

Multi-threaded tap connector to attach a line with Max-Flow couplings to the tap. Complete with washer. Female 1" 1/4 (33-42 mm) thread and 1" (26-34 mm) adaptor.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet	
9655		6	7,9 x 15,7 x 5,8	25 x 19 x 10	0,005	0,48	864	8 000625 096558

3/4" M THREADED  
MAX-FLOW ADAPTOR

9642

Threaded connector for fitting any accessory with a F 3/4" (20-27 mm) thread to the Max-Flow system.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet

NEW FOR 2023

NEW FOR 2023

**2-WAY MAX-FLOW CONNECTOR****9643**

Connector for joining together in series two hoses with Max-Flow couplings installed on the ends.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet	
9643		10	7,9 x 15,7 x 3,5	25 x 19 x 10	0,005	0,41	1140	8 000625 096435

**2-WAY CONNECTOR MAX-FLOW TO STANDARD****9644**

Connector for joining together in series two hoses with a Max-Flow coupling and a Quick-Click automatic coupling installed respectively on the ends.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet	
9644		10	7,9 x 15,7 x 3,5	25 x 19 x 10	0,005	0,37	1140	8 000625 096442

**3-WAY MAX-FLOW CONNECTOR****9645**

Three-way connector splitting the irrigation line and directing the water to two different points. Connect three lengths of hose with Max-Flow couplings on the ends.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet	
9645		10	7,9 x 15,7 x 2,6	25 x 19 x 10	0,005	0,61	1140	8 000625 096459

**3-WAY CONNECTOR MAX-FLOW TO STANDARD****9646**

Three-way connector splitting the irrigation line and directing the water to two different points. Connect one length of hose with a Max-Flow coupling to two lengths of hose with Quick-Click automatic couplings.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet	
9646		10	7,9 x 15,7 x 2,6	25 x 19 x 10	0,005	0,46	1140	8 000625 096466

**MAX-FLOW O-RING AND WASHERS SET****9657**

O-rings and spare 1" and 3/4" washers for products in the Max-Flow range.

It includes:  
 - 3 Max-Flow O-rings,  
 - 2 standard O-rings,  
 - 1 x 1" (26-34 mm) washer,  
 - 1 x 3/4" (20-27 mm) washer.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet	
9657		10	7,9 x 15,7 x 1,0	25 x 19 x 10	0,005	0,16	2160	8 000625 096572

## 3/4" MAX-FLOW COUPLING

9647

Max-Flow coupling for 3/4" (19 mm) hoses.  
A perfectly watertight connection and seal with Safety Lock.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
9647		8	7,9 x 15,7 x 2,6	25 x 19 x 10	0,005	0,58	1152	8 000625 096473

## 1" MAX-FLOW COUPLING

9650

Max-Flow coupling for 1" (25 mm) hoses.  
A perfectly watertight connection and seal with Safety Lock.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
9650		6	7,9 x 15,7 x 3,5	25 x 19 x 10	0,005	0,55	864	8 000625 096503

## 3/4" MAX-FLOW MENDER

9648

A mender to save a damaged hose: cut the hose at the point where the leak is and use it to join the two lengths together. For 3/4" (19 mm) hoses.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
9648		8	7,9 x 15,7 x 4,3	25 x 19 x 10	0,005	0,57	1152	8 000625 096480

## 3/4" - 1" MAX-FLOW MENDER

9649

A mender for joining together two hoses, one with a diameter of 3/4" (19 mm) and one 1" (25 mm), without needing any other accessories.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
9649		6	7,9 x 15,7 x 5,3	25 x 19 x 10	0,005	0,57	864	8 000625 096497

## 1" MAX-FLOW MENDER

9651

A mender to save a damaged hose: cut the hose at the point where the leak is and use it to join the two lengths together. For 1" (25 mm) hoses.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet

A LINE OF ANY LENGTH.

# METAL-JET

This comprehensive range offers the best in quality, made from chrome-plated brass, with lots of details that really make a difference. Brass guarantees high resistance and durability and the chrome-plating preserves the shine of the products over time, avoiding oxidation. Claber's Metal-Jet range is composed of a variety of products – tap connectors, automatic couplings, connectors, flow diverters, spray nozzles and pistols – all with Quick-Click couplings, making them compatible with plastic automatic couplings too. Metal-Jet connectors also have 6 internal spheres to guarantee automatic connection and a perfect seal. The screw collar with an exclusive Claber design profile distinguishes the product and improves the grip. The adjustable multipurpose pistols combine robust metal parts with an ergonomic plastic grip, helping you to select the best jet for all of your gardening needs.

### 3/4" M (20-27 mm) THREADED ADJUSTABLE TWO-WAY ADAPTER

**9601**

Adjustable two-way adapter, 3/4" (20-27 mm) thread, in chrome-plated brass.  
Independent water flow adjustment on the two lines. Secure fit on taps with 3/4" (20-27 mm) thread.  
Used to install two electronic timers, pressure reducers, etc.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
9601		4	14,5 x 12 x 5	22,5 x 15,5 x 13,3	0,005	1,97	400	8 000625 096015

### ADJUSTABLE TWO-WAY TAP CONNECTOR

**9602**

Two-way connector in chrome-plated brass.  
Used to connect up two lines fitted with Quick-Click automatic couplings to just one water outlet.  
Taps adjust independently.  
Secure fit on taps with 3/4" (20-27 mm) thread.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
9602		4	14,5 x 12 x 5	22,5 x 15,5 x 13,3	0,005	1,53	400	8 000625 096022

### 1" (26-34 mm) TAP CONNECTOR WITH 3/4" (20-27 mm) ADAPTER

**9603**

Tap connector in chrome-plated brass.  
For connecting automatic couplings to the tap.  
Female 1" (26-34 mm) thread and 3/4" (20-27 mm) adapter.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
9603		10	7 x 12 x 3	19,5 x 19,3 x 8,5	0,003	1,14	1440	8 000625 096039

### 3/4" (20-27 mm) TAP CONNECTOR

**9604**

Tap connector in chrome-plated brass.  
For connecting automatic couplings to the tap.  
Female 3/4" (20-27 mm) thread.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
9604		10	7 x 12 x 3,6	19 x 16 x 9,3	0,003	0,64	1800	8 000625 096046

### 1/2" (15 - 21 mm) TAP CONNECTOR

**9605**

Chrome-plated brass tap connector.  
For connecting automatic couplings to the tap.  
Female 1/2" (15 - 21 mm) thread.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
9605		10	7 x 12 x 2,4	19 x 12,8 x 8,5	0,002	0,54	2160	8 000625 096053

## TWO-WAY CONNECTOR

**9606**

Two-way connector in chrome-plated brass.  
Connects two hoses with automatic couplings in series.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
9606		10	7 x 12 x 2	19 x 12,8 x 8,5	0,002	0,70	2160	8 000625 096060

## THREE-WAY CONNECTOR

**9607**

Three-way connector in chrome-plated brass.  
Splits the irrigation line into two different directions.  
Connects three hoses with automatic couplings.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
9607		8	7 x 12 x 1,9	19 x 12,8 x 8,5	0,002	1,16	1728	8 000625 096077

1/2" M (15 - 21 mm)  
CONNECTOR**9608**

Chrome-plated brass connector with 1/2" (15 - 21 mm) male thread.  
For connecting any sprinkler or accessory with 1/2" female thread to the Quick-Click system at the water inlet.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
9608		10	7 x 12 x 2,6	19 x 12,8 x 8,5	0,002	0,55	2160	8 000625 096084

3/4" M (20 - 27 mm)  
CONNECTOR**9609**

Chrome-plated brass connector with 3/4" (20 - 27 mm) male thread.  
For connecting any sprinkler or accessory with 3/4" female thread to the Quick-Click system at the water inlet.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
9609		10	7 x 12 x 2,8	19 x 12,8 x 8,5	0,002	0,62	2160	8 000625 096091

**1/2"-5/8" AUTOMATIC COUPLING****9610**

Automatic coupling for 1/2" (12,5 mm) - 5/8" (15 mm) diameter hoses in chrome-plated brass. Equipped with 6 internal bearings to guarantee automatic connection and perfect seal. The tightening ring nut with an exclusive Claber design profile distinguishes the product and improves grip.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet	
9610		8	7 x 12 x 3	19 x 16 x 9,3	0,003	0,92	1440	8 000625 096107

**1/2"-5/8" AUTOMATIC COUPLING W/STOP****9611**

Automatic coupling for 1/2" (12,5 mm) - 5/8" (15 mm) diameter hoses in chrome-plated brass. Provided with an automatic water stop valve. Fits onto the end of the hose. Disconnect the coupling to stop the water flow. Equipped with 6 internal bearings to guarantee automatic connection and perfect seal. The tightening ring nut with an exclusive Claber design profile distinguishes the product and improves grip.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet	
9611		8	7 x 12 x 3	19,5 x 19,3 x 8,5	0,003	0,93	1440	8 000625 096114

**3/4" AUTOMATIC COUPLING****9613**

Automatic coupling for 3/4" (19 mm) diameter hoses in chrome-plated brass. Equipped with 6 internal bearings to guarantee automatic connection and perfect seal. The tightening ring nut with an exclusive Claber design profile distinguishes the product and improves the grip.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet	
9613		8	7 x 12 x 4,5	19,5 x 19,3 x 8,5	0,003	1,15	1152	8 000625 096138

**3/4" AUTOMATIC COUPLING W/STOP****9614**

Automatic coupling for 3/4" (19 mm) diameter hoses in chrome-plated brass. Provided with an automatic water stop valve. Fits onto the end of the hose. Disconnect the coupling to stop the flow of water. Equipped with 6 internal bearings to guarantee automatic connection and perfect seal. The tightening ring nut with an exclusive Claber design profile distinguishes the product and improves the grip.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet	
9614		8	7 x 12 x 4,5	19,5 x 19,3 x 8,5	0,003	1,18	1152	8 000625 096145

**1/2"-5/8" MENDER****9612**

Mender for 1/2" (12,5 mm) - 5/8" (15 mm) diameter hoses in chrome-plated brass. Repair a damaged hose: cut the hose at the point where the leak is and use it to join the two sections together. The tightening ring nut with an exclusive Claber design profile distinguishes the product and improves the grip.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet	
9612		8	7 x 12 x 3,3	19 x 16 x 9,3	0,003	0,74	1440	8 000625 096121

**3/4" MENDER****9615**

Mender for 3/4" (19 mm) diameter hoses in chrome-plated brass. Repair a damaged hose: cut the hose at the point where the leak is and use it to join the two hose lengths together. The tightening ring nut with an exclusive Claber design profile distinguishes the product and improves the grip.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet	
9615		8	7 x 12 x 4	19,5 x 19,3 x 8,5	0,003	1,16	1152	8 000625 096152

SPRAY NOZZLE  
WITH ADJUSTABLE JET

9620

Spray nozzle with adjustable jet: from fully open to fully closed (mist or concentrated). Made from chrome-plated brass. Quick-Click coupling.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet	
9620		8	14,5 x 12 x 2,8	22,5 x 15,5 x 13,3	0,005	1,20	800	8 000625 096206

BASIC METAL PISTOL

9619

Chrome-plated metal spray pistol. Flow adjustment lever and exclusive device for selecting and fixing the desired jet. Quick-Click coupling.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet	
9619		5	14,5 x 20 x 3,1	19 x 16,5 x 24,5	0,008	1,20	280	8 000625 096190

SPRAY PISTOL

9621

Spray pistol in chrome-plated metal. Rubber ergonomic grip. Water flow adjustment lever and lock for desired jet. Quick-Click coupling.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet	
9621		4	14,5 x 18 x 3,5	19 x 16,5 x 24,5	0,008	1,40	224	8 000625 096213

8 PATTERNS  
MULTIFUNCTION PISTOL

9622

Multifunction pistol in chrome-plated metal. Rubber ergonomic grip. Water flow adjustment lever and lock for desired jet. Turn the ring nut for 8 different spray patterns. Quick-Click coupling.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet	
9622		4	14,5 x 21 x 6	19 x 16,5 x 24,5	0,008	1,5	224	8 000625 096220

## IMPACT METAL-JET SPIKE

**9623**

Chrome-plated metal pulsating sprinkler for 0° to 350° sector irrigation or 360° continuous rotation. Mounted on a metal spike for fixing securely into the ground. Provided with diffuser screw for uniform irrigation and deflector to lower the height of the jet if necessary. Option to connect two sprinklers in line (using the 3/4" threaded outlet).  
Operating pressure 1-3 bar.  
Maximum irrigated area 500 m<sup>2</sup>.

Bar	m <sup>2</sup>	Ø m	l / min
1,0	255	18	8
2,0	415	23	11
3,0	500	25	16

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet
9623		3	14,5 x 31 x 6	32 x 11 x 18	0,006	1,20	210

COMPLETE WITH ACCESSORIES FOR EVERY TYPE OF CONNECTION AND USE, THE METAL-JET RANGE IS THE BEST CHOICE FOR THOSE LOOKING FOR DURABILITY AND STRENGTH.

OPTION FOR CONTINUOUS ROTATION OR IN 0°-350° SECTORS

PERFECT STABILITY THANKS TO THE METAL SPIKE

# OSCILLATING SPRINKLERS

The Compact line is the ideal choice for watering your lawn, as it has an adjustable jet that simulates light rain.

The elegant design of the outer casing in ABS, a sturdy turbine engine and resistant gears make this line one of Claber's most successful. Thanks to the special Aqua Control system, it could not be any easier to adjust the coverage of the area you want to water with just 2 fingers!

WIDE-REACHING, UNIFORM JET  
LIKE LIGHT RAIN

## COMPACT

Precise and gentle

LIGHTWEIGHT, RESISTANT AND  
RUSTPROOF MATERIALS

TURBINE ENGINE  
FOR HIGH PERFORMANCE

## COMPACT-160 PROMO

**8740**

Oscillating sprinkler, 14 precision punched water holes providing uniform distribution with natural rain effect. Control knob for selection of 4 main spray patterns with many intermediate steps. Irrigated area max 180 m<sup>2</sup>.

Bar	m <sup>2</sup>	m	l/min

## COMPACT-12

**8748**

Oscillating arm in ABS, available with 12 holes, this model is supplied complete with hydraulic motor and self-lubricating nonwearing acetal resin gears. The new large-diameter turbine offers high performance even at low pressure, while the new watering selection device, comprising a practical click-operated selector provides 5 different water settings. A sled in aluminium sections (Ø 10 mm) ensures excellent stability and easy trailing. Irrigated area max 190 m<sup>2</sup>.

Bar	m <sup>2</sup>	m	l/min
1	98	11,5 x 8,5	9,1
2	169	14,5 x 11,5	12,4
3	192	17,5 x 11,0	14,1
4	165	16,5 x 10,0	15,7

8748		3	32 x 8,5 x 19	20 x 30 x 33	0,019	1,86	144

COMPACT-20  
AQUA CONTROL**8753**

The oscillating arm in ABS complete with the exclusive "Aqua Control" system allows to vary coverage of the irrigated area as required. Available with 20 holes and 8 adjustable nozzles (complete with knurled end for secure connection), this model is supplied complete with hydraulic motor and self-lubricating non-wearing acetal resin gears. The new large-diameter turbine offers high performance even at low pressure, while the new watering selection device, comprising a practical click-operated selector provides 5 different water settings. A sled in aluminium sections (Ø 10 mm) ensures excellent stability and easy trailing. Irrigated area max 320 m<sup>2</sup>.

Bar	m <sup>2</sup>	m	l/min

COMPACT-16  
SUPER METAL**8743**

The oscillating aluminium arm with 16 brass nozzles guarantees regular water jet operation. The large sized sturdy ABS body houses the hydraulic motor which may be opened for inspection while the large-section aluminium elements (Ø 15 mm), which comprise the sled base, guarantee excellent stability and easy trailing. Irrigated area max 290 m<sup>2</sup>.

Bar	m <sup>2</sup>	m	l/min

# STATIC AND ROTATING SPRINKLERS

Claber static and rotating sprinklers offer you all of this: a great look, ease of use, versatile features and a vast range of solutions to meet different needs. From compact models, easy to move across the lawn, to models on spike to be firmly anchored into the ground, without damaging your grass.

Watering is always even and just like natural rainfall, even at low water pressure.

## MULTIFUNCTION SPRINKLER

**8654**

Made entirely in ABS.  
Special round shape allows easy dragging over lawns, between flower beds and plants. Shaped upper section for easily lifting.  
Flange rotates to provide 6 different functions.  
Irrigated area max 64 m<sup>2</sup>.

Bar	m <sup>2</sup>	Ø m	l / min
1	36	6,0	17,5
2	64	8,0	24,7
3	64	8,0	30,3
4	64	8,0	34,0

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet

## ROLLINA

**8656**

New compact, contoured design for easy movement over lawns.  
The new 5-blade rotor intercepts the water jets to create a fine natural rain effect.  
Irrigated area max 20 m<sup>2</sup>.

Bar	m <sup>2</sup>	Ø m	l / min
1	13	4,0	18,0
2	16	4,5	25,0
3	20	5,0	30,0

## TURBOSPRUZZO

**8658**

New compact, contoured design for easy movement over lawns.  
Stationary sprinkler produces a fine spray for watering circular areas.  
Irrigated area max 63 m<sup>2</sup>.

Bar	m <sup>2</sup>	Ø m	l / min
1	58	9,0	18,0
2	63	9,0	24,0
3	57	8,0	27,0
4	47	8,0	30,0

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet

## IDROSPRAY 2000

8675

Rotating 2-arm sprinkler constructed entirely in ABS. Special rounded design enables easy movement over lawn. Offset nozzle jets in fan arrangement achieve a uniform spray and magnificent water games. Adjustable nozzles optimise performance also at low pressure. Covers circular areas with light rain effect. Irrigated area max 177 m<sup>2</sup>.

Bar	m <sup>2</sup>	Ø m	l / min
1	123	12,5	14,0
2	177	15,0	17,8
3	143	13,5	20,5
4	123	12,5	23,0

8661		5	15,4 x 30 x 7,2	40 x 18 x 18	0,013	0,57	350

## SPRAY-JET

**8663**

Rotating 2-arm sprinkler with adjustable nozzles and a new design.

It can be positioned where needed using the special shaped stake, designed to guarantee maximum stability in the ground.

Covers circular areas with light rain effect. Quick-Click standard connection.

Irrigated area max 64 m<sup>2</sup>.

Bar	m <sup>2</sup>	Ø m	l / min
1	64	9,0	4,2
2	64	9,0	5,9
3	55	8,5	7,0
4	55	8,5	7,7

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet
8663		5	15,4 x 30 x 7,2	40 x 18 x 18	0,013	0,73	350

## VARIO-JET

**8662**

Multifunction static sprinkler with a new design. It features four different jets, which can be selected by turning the head: spray, blade jet, 360°, 180°.

The stake has been designed to guarantee maximum stability.

Quick-Click standard connection.

Irrigated area max 64 m<sup>2</sup>.

Bar	m <sup>2</sup>	Ø m	l / min
1	20	5,0	5,6
2	38	7,0	8,1
3	64	9,0	9,8
4	50	8,0	11,5

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet
8662		5	15,4 x 30 x 7,2	40 x 18 x 18	0,013	0,83	350

## PULSATING SPRINKLERS

Pulsating sprinklers are the ideal solution for watering at long distances: with the Impact line, Claber takes performance and versatility to new heights.

The head design guarantees that the jet is well distributed, with no water leakage from the sides.

The reverse mechanism means you can water a targeted area between 0° and 360°.

Alternatively, you can lift up the mechanism so that the head turns freely and waters the full circular area evenly. The stainless-steel pin and wear-resistant bronze bushing guarantee maximum durability. The steel tripod with an epoxy powder coating is ultra-stable and height-adjustable (tripod kit, complete with threaded tube).

3/4" (20-27 MM)  
IMPACT FEMALE HEAD**8705**

Pulsating sprinkler head providing 0° to 360° circle coverage or continuous rotation.

3/4" (20-27 mm) female thread.

Diffuser screw assures even water distribution.

Self-adjusting up to 4 bar, adjustment device for optimal setting at high water pressures.

Stainless steel pin and wear-resistant bronze bushing.

Bar	m <sup>2</sup>	Ø m	l / min
1	214	16,5	9,3
2	330	20,5	11,9
3	380	22,0	14,8
4	397	22,5	16,9

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet
8705		5	15,4 x 24 x 4,8	28 x 25 x 13	0,009	0,95	360

## IMPACT ON STAKE

**8707**

Pulsating sprinkler head providing 0° to 360° circle coverage or continuous rotation, mounted on steady twin-point stake. Diffuser screw assures even water distribution. Self-adjusting up to 4 bar, adjustment device for optimal setting at high water pressures. Stainless steel pin and wear-resistant bronze bushing. Irrigated area max 397 m<sup>2</sup>.

Bar	m <sup>2</sup>	Ø m	l / min
1	214	16,5	9,3
2	330	20,5	11,9
3	380	22,0	14,8
4	397	22,5	16,9

8708		5	16 x 7 x 39	20 x 39,5 x 19,5	0,016	1,26	240	

## IMPACT TRIPOD

**8709**

Pulsating sprinkler head providing 0° to 360° circle coverage or continuous rotation, mounted on steady aluminium tripod. "L" water connection at base. Diffuser screw assures even water distribution. Self-adjusting up to 4 bar, adjustment device for optimal setting at high water pressures. Stainless steel pin and wear-resistant bronze bushing. Irrigated area max 491 m<sup>2</sup>.

Bar	m <sup>2</sup>	Ø m	l / min
1	227	17,0	9,3
2	346	21,0	11,9
3	437	23,6	14,8
4	491	25,0	16,9

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet	
8709		4	9,7 x 38 x 6	18 x 40 x 18	0,012	1,81	280	

## IMPACT TRIPOD KIT

**8715**

Pulsating sprinkler head providing 0° to 360° circle coverage or continuous rotation, mounted on tripod with adjustable opening and height. "L" water connection at base. Diffuser screw assures even water distribution. Self-adjusting up to 4 bar, adjustment device for optimal setting at high water pressures. Stainless steel pin and wear-resistant bronze bushing. Steel tripod with epoxy powder paint finish, with 3/4" (20-27 mm) threaded aluminium tube for height adjustment. Tool-free assembly, comes in practical compact package. Irrigated area max 572 m<sup>2</sup>.

Bar	m <sup>2</sup>	Ø m	l / min

# HOSE REELS AND CARTS

Claber offers the most comprehensive range of hose reels and carts for all of your needs in the garden or on your patio or terrace. Versatile, sturdy and easy to manoeuvre, they are also available as a kit, complete with hose, spray nozzle and accessories, with a metal structure for top performance.

## THE COMPACT SOLUTIONS

Thanks to their compact size, Claber hose reels are the ideal solution for small and medium-sized gardens and terraces. Their unmistakable design is also multi-purpose, as they can be used on the ground or mounted on the wall. Lightweight, stable and easy to manoeuvre, they can be assembled in a flash, without any tools. They also come in a kit complete with hose, accessories and a spray nozzle or pistol.

### ECO 0

**8866**

"Eco 0" wall hanger for hose.  
Reinforced grooves prevent change in form.  
Hooking up hose and handgrip.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet

### MINI-SET BALCONY

**9031**

Compact hose reel with accessories, ready-to-use.  
Provided with retractable handle for ease of transport and placement.  
Wall-mounted. Easy-to-store, thanks to its conveniently located recesses, designed to house couplings, tap connector and pistol.  
Includes: 10 metres of Ø 9-13 mm hose, 1 x 3/4" (20-27 mm) connector with 1/2" (15-21 mm) reducer, 2 x automatic couplings, 1 x multifunction pistol with aerator.

## THE ESSENTIALS

Claber's work on its carts also continues to develop, offering several benefits both in store and in the garden.

Made of sturdy plastic, these models can be easily assembled, without needing any tools.

This is thanks to the new assembly mechanism for the flanges and the reinforced drum.

The new plastic handle is ergonomic and ensures a comfortable grip; a feature that has also shrunk the size of the packaging, now even more compact and easier to transport.

### ECOSEI

**8980**

Comes disassembled in a kit, for rapid, easy assembly without tools.  
Ergonomic plastic handle. Sturdy, lightweight rust-proof aluminium frame.  
New cross sections without sharp edges, with tubular strengthening structure.  
Reel drum turns smoothly on delrin bearings.  
Contoured, partly enclosed wheels for movement between even the tightest spaces.  
Coupling supplied for hose connection; hose rack holder included.  
Compact packaging to facilitate transport, storage and display in retail outlets.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet	
8980		1	40 x 40 x 12	40 x 40 x 12	0,019	2,88	54	8 000625 089802

### ECOSEI KIT

**8981**

The kit consists in the hose cart Ecosei disassembled, packed in a carton supplied complete with:  
- 20 m of 1/2" (12,5 mm) Silver Elegant Plus hose  
- tap connector 3/4" (20-27 mm)+ reducer 1/2" (15-21 mm)  
- 4 couplings (2 for preparing the extension)  
- spray nozzle  
- hose rack holder.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet

## GENIUS®, NUMBER ONE FOR MEDIUM-SIZED GARDENS

Reinforced cross-bars, a special anti-twist groove and a lower centre of gravity to enhance its stability: these are the features that make Genius the ideal cart for medium-sized gardens.

Both handy and sturdy, they can be used to unwind up to 100 metres of hose, depending on the model, while still being practical to use.

The winding knob has been carefully studied to guarantee a comfortable grip and to make the hose easy to unwind and rewind.

All with the same guaranteed Claber quality.

The aluminium frame is rustproof, sturdy and quick and easy to assemble without the need of tools.

## GENIUS 60

**8862**

Genius hose cart, ideal for medium-sized gardens.

Comes disassembled in a kit for quick and easy assembly, without tools.

Lightweight, sturdy, rustproof aluminium frame.

Reinforced plastic drum, mounted on Delrin bearings, meaning it rewinds without causing friction.

Easy-grip knob to make the hose handy to rewind.

Coupling supplied for hose connection; hose rack holder included.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
8862		1	40 x 40 x 49	40 x 40 x 49	0,076	3,14	24	

## GENIUS 100

**8872**

Genius hose reel cart, ideal for large gardens.

Comes disassembled in a kit for quick and easy assembly, without tools.

Lightweight, sturdy, rustproof aluminium frame.

Reinforced plastic drum, mounted on Delrin bearings, meaning it rewinds without causing friction.

Large size wheels covered in rubber giving high stability, ideal for heavier load.

Easy-grip knob to make the hose handy to rewind.

Coupling supplied for hose connection; hose rack holder included.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
8872		1	38 x 38 x 58	38 x 38 x 58	0,083	4,20	22	

## KIT PRONTO 30

**8864**

Kit with Genius 60 hose cart, supplied complete with:

- 30 m of Ø 1/2" (12,5 mm) Top-Black hose
- tap connector, couplings and spray nozzle
- 1,5 m extension hose with couplings
- hose rack holder.

Ready-to-use.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
8864		1	40 x 40 x 49	40 x 40 x 49	0,076	7,90	24	

## READY TO USE

Our top-selling carts are delivered on pallets, always ready to use: whether displayed in store on practical pallets or at home, they are preassembled and come complete with hose, spray nozzle and all the accessories you need.

A solution that enhances product visibility and promotes self-service purchases.

### QUBO PRONTO 25

**8924**

Ready-to-use hose cart with a new design, equipped with a smaller drum (41 cm wide) to make it easier to use in narrow spaces. The telescopic handle is easy to close away by pressing on the two side levers.

Aluminium structure.

Carved wheels to move easily over any surface.

Supplied with:

- 25 m 1/2" (12,5 mm) Silver Elegant Plus hose
- hose rack holder
- 4 automatic couplings (one with aquastop)
- spray nozzle
- tap connector
- hose rack holder.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet

NEW FOR 2023

NEW FOR 2023

## FOR THE PROS

The most high-performing Claber carts are for the most demanding customers, ideal for those looking for professional quality and handiness. The structure is made entirely of metal and the surface has been treated to make the product last over time. The winding handle is handy and enables a smooth rewind of the hose. The drum is mounted on acetalic resin bearings, making it easier to rewind without causing friction. The perfect compromise for a sturdy yet handy product.

### METAL 40

8890

Removable hose reel for wall mounting, comes in a kit for easy, tool-free assembly. The frame and drum are constructed entirely of metal. Epoxy resin finish helps protect the metal work from the elements over time. Supplied complete with two wall brackets, universal hose connector and hose rack holder.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
8890		1	40 x 40 x 12	40 x 40 x 12	0,019	5,40	54	

### METAL 60

8891

The frame and drum are constructed entirely of metal. Resistant to elements thanks to its epoxy resin treatment. Available in kit, easy to assemble without the use of tools. Fitted with silent-block preventing the wear of metal on metal. Large size wheels make the handling easier and guarantee stability on all type of ground surfaces. Universal coupling supplied for hose connection, hose rack holder included.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
8891		1	59 x 39 x 12	59 x 39 x 12	0,028	6,80	32	

## METAL GEMINI

**8894**

The frame and drum are constructed entirely of metal. Resistant to elements thanks to its epoxy resin treatment.

Available in kit, easy to assemble without the use of tools.

Fitted with silent-block preventing the wear of metal on metal.

Large size wheels make the handling easier and guarantee stability on all type of ground surfaces.

Equipped with 2 universal couplings.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet

## METAL PROFY

**8895**

The frame and drum are constructed entirely of metal. Resistant to elements thanks to its epoxy resin treatment. Available in kit, easy to assemble without the use of tools.

Fitted with silent-block preventing the wear of metal on metal.

Large size wheels covered in rubber giving high stability, ideal for heavier load.

Water-thru of large diameter.

Equipped with 2 universal couplings.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
8895		1	57 x 57 x 13	57 x 57 x 13	0,039	10,20	12	8 000625 088959

## JUMBO

**8900**

Hose cart with 4 wheels. The frame and drum are constructed entirely of metal.

Resistant to the elements, thanks to its epoxy resin surface treatment.

Metal parts coupled by way of Silent block mounts.

Zinc coated parts.

Drum at 90°. Large diameter wheels with anti-flat tyres.

Comes with 2 metres Ø 5/8" (15 mm) extension and couplings.

Supplied as kit, quick and easy to assemble.

# ROTOROLL® EVOLUTION

The Rotoroll Evolution makes watering your garden a joy, thanks to its innovative features and unmistakable Claber quality. With its practical wall mount, Rotoroll is ready to use. Free 180° rotation means the hose unwinds smoothly in any direction, to ensure maximum comfort every time. Once you are done, the hose rewinds back up quickly and tidily, with no effort at all, thanks to the new automatic SLOW REWIND mechanism. High-quality materials that are resistant to knocks and exposure to sunlight make Rotoroll Evolution the perfect hose reel for any garden, large or small, as well as for your patio.

INFO

NEW FOR 2023

## ROTOROLL EVOLUTION 10 m

8692

A hose reel with an exclusive automatic rewind mechanism, "Slow Rewind", for safe and easy use. Ready to use with 10 m of special non-deformable hose with an anti-friction surface for smooth, quick rewinding.

It is made from materials resistant to impact and sunlight, to ensure maximum durability.

The reinforced resin wall support with a rustproof aluminium pin allows the hose reel to be angled up to 180° towards the direction of use.

This avoids the hose being bent or obstructed.

It is equipped with an extension hose to connect it to a tap (1.5 m), a 3/4" (20-27 mm) connector, automatic couplings and a spray nozzle. It comes complete with a wall support, screws and plugs for wall mounting.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
8692		1	41 x 38,5 x 24	41 x 38,5 x 24	0,038	6,00	20	

## ROTOROLL EVOLUTION 20 m

8696

A hose reel with an exclusive automatic rewind mechanism, "Slow Rewind", for safe and easy use. Ready to use with 20 m of special non-deformable hose with an anti-friction surface for smooth, quick rewinding. It is made from materials resistant to impact and sunlight, to ensure maximum durability.

The reinforced resin wall support with a rustproof aluminium pin allows the hose reel to swing through 180° towards the direction of use.

This avoids the hose being bent or obstructed. It is equipped with an extension hose to connect it to a tap (1.5 m length), a 3/4" (20-27 mm) tap connector, automatic couplings and a spray nozzle.

It comes complete with a wall support, screws and plugs for wall mounting.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
8696		1	49 x 26,5 x 38	49 x 26,5 x 38	0,050	9,50	12	

## ROTOROLL EVOLUTION 30 m

8697

A hose reel with an exclusive automatic rewind mechanism, "Slow Rewind", for safe and easy use. Ready to use with 30 m of special non-deformable hose with an anti-friction surface for smooth, quick rewinding.

It is made from materials resistant to impact and sunlight, to ensure maximum durability.

The reinforced resin wall support with a rustproof aluminium pin allows the hose reel to be angled up to 180° towards the direction of use.

This avoids the hose being bent or obstructed. It is equipped with an extension to connect up to a tap (2 m length), a 3/4" (20-27 mm) tap connector, automatic couplings and a spray nozzle.

It comes complete with a wall support, screws and plugs for wall mounting.

# LIFE OUTDOORS

Claber has really thought of everything, suggesting practical solutions for gardens and living spaces, like the Malibù Shower, which can be placed on any surface thanks to its stable tripod base, to offer a relaxing moment in the midst of the greenery or at poolside.

For collecting everything in the garden, as well as at home or in the office, there's Carry Cart, the solid, extremely light multi-purpose cart that can be taken everywhere with ease thanks to the sculpted tread of its wheels, ideal for heavy loads too, used with robust Claber bags in recyclable material. Lastly, not forgetting Claber's cleaning solutions: from pistols with dynamic jets for cleaning walls and paving stones to brushes with soft bristles for washing cars and bicycles safely and gently.

## CARRY CART ECO

8934

The original cleaning up cart for the disposal of outdoor refuse (leaves, grass cutting, paper, etc.) Rust-resistant aluminium frame, it can be left outdoor as it is completely weatherproof.

Push-in connecting system of the innovative hivestrukture side upright. The ring supporting the disposal bag can be adjusted to different heights thanks to the lever clamps, overcoming any problem due to the size of the collecting bags. Resin clamps fit the bag to the ring.

New snap-fit polypropylene support base is able to withstand heavy loads. Aluminium wheel-axle inserted into proper slots.

# HAPPY FRESH EVOLUTION

Happy Fresh is the practical kit designed by Claber to cool down hot summer days on the patio, in the garden or on the terrace. The efficiency of the micro-mist nozzles means that the microscopic drops of water released into the atmosphere can reduce the temperature by up to 6 degrees, creating a feeling of well-being on even the hottest days. Quick to assemble, the Happy Fresh Kit can easily be hooked onto parasols, gazebos and sunshades; you just need a tap and an extension hose to enjoy only the pleasant side of summer. The system can be integrated with Aquauno Mist, the new versatile battery-powered Claber timer that allows you to set the frequency and run time of the nebulisation periods.

## HAPPY FRESH KIT

Only the best of summer

UP TO 6 DEGREES LESS,  
THANKS TO THE EFFICIENCY  
OF THE MICRO-MIST NOZZLES

EASY ATTACHMENT  
AND ANTI-DRIP BRASS NOZZLES

OPTIONAL TIMER

## AQUAUNO MIST

8496

Automatic one-way timer, ideal for cyclical automation of both Happy Fresh cooling systems and watering systems on the terrace and in the garden. Easy programming with 2 rotary knobs: one to set the frequency and the other to select the run time. 27 programs can be selected for drip systems (yellow sector, run time from 2 to 90 mins every 12, 24 or 48 hours), 24 possible combinations for Happy Fresh systems (blue quadrant, run time from 5 to 45 seconds, every 1, 3, 5, 10 mins). Option of 5 min function test. Equipped with washable filter. Works with 9 V alkaline battery. Electronic part perfectly sealed. Operating pressure from 0.5 to 10 bars. 100% checked and tested.

## HAPPY FRESH EVOLUTION KIT 7,5 M

90751

Misting kit ideal for cooling down outdoor spaces on hot summer days. The kit (made up of 7.5 m of hose, 6 micro-mist nozzles, connectors and fitting clips) can easily be hooked onto sunshades, gazebos and parasols and connected to the tap (using an extension hose fitting that is not provided). The micro-mist sprayers, with anti-drip brass nozzles, release a vapour of microscopic drops of water into the air, which allow the atmosphere to be cooled by up to 6°. The system can be automatically activated by adding the Aquauno Mist timer (not included). Operating pressure: 3-6 bar.

## CONTAINS

Hose	7,5 m	Spring clips to fasten hose	11
In-line micro-mist nozzles	5	3/4" thread male connector	1
End-of-line micro-mist nozzle	1	Connector for hose with washable filter	1
Clips + screws to fasten hose	11 + 11

## KIT HAPPY FRESH EVOLUTION KIT 12 M W/TIMER

90753

Misting kit ideal for cooling down outdoor spaces on hot summer days. The kit (made up of 12 m of hose, 9 micro-mist nozzles, connectors and fitting clips) can easily be hooked onto sunshades, gazebos and parasols. The micro-mist sprayers, with anti-drip brass nozzles, release a vapour of microscopic drops of water into the air, which allow the atmosphere to be cooled by up to 6°. The kit also includes the battery-powered Aquauno Mist timer, which automatically turns on the cooling system at regular intervals. Operating pressure: 3-6 bar.

## CONTAINS

Hose	12 m	Spring clips to fasten hose	17
In-line micro-mist nozzles	8	3/4" thread male connector	1
End-of-line micro-mist nozzle	1	Connector for hose with washable filter	1

# HOSES

Claber has always been at the forefront for its above-ground irrigation hoses, offering high quality and non-toxic products. These hoses are made of carefully selected, non-recycled materials with no heavy metals or phthalates, safeguarding your health and the environment. They are also all UV and algae resistant. Handiness, endurance and great aesthetics are guaranteed: Claber can make a difference.

## TOP BLACK®

Kink-resistant hose with a special braided reinforcement that guarantees excellent stability at high water pressure; algae-resistant and UV-resistant.

The Top-Black hoses are 100% safe, as they contain no heavy metals or phthalates.

## SILVER GREEN® PLUS

Anti-kink hose with a special helix-pattern knitting that guarantees excellent stability at high water pressure; algae- and UV-resistant. The Silver Green Plus hoses are 100% safe, as they contain no heavy metals or phthalates.

## FLEXYFORT® GREEN

Knitted hose with special kink-resistant layer: it does not twist even at high pressure. Algae-resistant and UV-resistant.

The Flexyfort Green hoses are 100% safe, as they contain no heavy metals or phthalates.

## SILVER ELEGANT® PLUS

Ultra-light braided hose that is easy to handle, kink-resistant, flexible, algae-resistant and UV-resistant. The Silver Elegant Plus hoses are 100% safe, as they contain no heavy metals or phthalates.

## AQUAVIVA® PLUS

Easy-to-handle hose with algae-resistant, robust and flexible lining.

The Aquaviva Plus hoses are 100% safe, as they contain no heavy metals or phthalates.

NEW FOR 2023

# TWIDDY

Practical, light, clean, convenient... we could go on in listing its qualities, but it's when you turn the tap on that Twiddy suddenly surprise us. Because the new fabric hose made by Claber can double in length when water flows through it, and the 'Follow me' system makes it expand even further, so as to reach any point you want to water. Pleasant to touch, always clean, manoeuvrable without ever getting twisted, Twiddy will exceed all expectations.

## TWIDDY

Exceeding all expectations.

**2X**  
EXTENDABLE

SPECIAL "CLEAN HOSE"  
TREATMENT

COMES WITH MULTIPURPOSE  
SPRAY NOZZLE

ALWAYS TIDY  
EASY-TO-STORE

IDEAL ON THE TERRACE,  
ON A BOAT,  
IN A CAMPER VAN.

NEW FOR 2023

## TWIDDY 12,5 m

9336

Extendable textile hose with accessories. Ready at once, it fits onto the tap connector for immediate use. As water flows through the hose, it extends to up to twice its length (max. length 12.5 m with pressure between 3 and 10 bars). In addition, thanks to its "follow me" technology, pulling the hose slightly will extend it further by about 10%. Once you have finished using the hose, it shrinks back by itself. Super-light, only 70 g per metre, it's ideal for non-intensive uses like camping, sailing, gardens and terraces. A special treatment to the surface guarantees that it always looks clean after use; just wash it with water. Quick-Click fittings with anti-kink flexible end for easy use in any direction. Multifunction spray nozzle featuring 5 jets: shower, concentrated, mist, cone and flat (+ 1 OFF). Working temperature from -10 to + 50°C. Max. working pressure: 10 bar.

# TOP-LIGHT HOSES

Top-Light is Claber's new incredibly light garden hose.

Thanks to the innovative material it is made of, Top-Light does not bend or become blocked, therefore ensuring the constant and continuous passage of water in any situation. Top-Light is non-toxic, free from phthalates, BPA and heavy metals, and is 100% recyclable. The first garden hose of its type.

## TOP-LIGHT

The lightest garden hose ever

INCREDIBLY LIGHT

WATER NON-STOP

SPECIAL ANTI-KINK STRUCTURE

## TOP-LIGHT Ø 1/2"

10 m

**9340**

Lightweight hose, easy to handle and resistant to kinks, torsion and UV rays. Ideal to ensure an easy and convenient watering on terraces and gardens. Non-toxic (free from phthalates, BPA and heavy metals), Top-Light is made from high quality materials and is fully recyclable. Working pressure 0-4 bar. Diameter: int. 12,5 mm, external 17,4 mm. Supplied with two automatic couplings, included in the pack.

NEW FOR 2023

NEW FOR 2023

# SPIRAL KIT

Spiral hose, tap connector and multifunction head or spray nozzle with adjustable jet: all in one package! Keep it close to hand whether in your garden, out on the terrace, at your holiday home, in your campervan or on your boat.

All Spiral Kit components have been designed to work perfectly and last.

The hose undergoes a special treatment during production, meaning it always returns to its compact spiral shape, making it easy to store away tidily in its wall bracket.

FLEXIBLE  
IRRIGATION

Spiral Kit is a simple, practical and efficient solution for watering flower beds or pot plants, taking up minimal space.

		9034 10 m	9338 15 m
Flow rate (l/min)	2 bar	9,9 l/min	8,70 l/min
	3 bar	12,30 l/min	11,00 l/min

# DRIP IRRIGATION

## THE MICRO-IRRIGATION EVOLUTION

Claber has designed a series of impressive solutions to help you set up an easy, made-to-measure micro-irrigation system.

Claber has taken inspiration from nature and natural rainfall, to create irrigation systems which provide each plant with the right amount of water, without wasting a drop.

The core of a micro-irrigation system is the wide range of battery-operated timers, flexible and easy to use like no other, distributing the amount of water each plant needs, when it needs it.

Claber has covered all the requirements, with independent systems that can run for long periods without needing any taps or an electrical power supply – a real revolution that sets you free! Whether on your balcony or terrace, in your garden or vegetable patch, even at home or at work, Claber is always the right choice.

Never compromise on your  
passion for green.

Water your plants in the best  
possible way.

#### CAREFREE IRRIGATION

As the technological core of Claber systems, the easy-to-use and reliable timers allow you to manage your system according to an accurate, well-calibrated irrigation schedule. From the simplest models with preset programmes, to those with customisable features, there is the perfect timer model for everybody.

#### DROP BY DROP

Claber drippers provide constant, accurate and gentle watering. The drops are distributed near the roots of each plant, keeping them happy and healthy, without wasting water.

#### SPRING RAIN

RainJet micro-sprinklers can be used to distribute a water spray or delicate jet over a specific area with a great level of accuracy.

#### THERE FOR YOU, EVEN WHEN YOU'RE NOT

Aqualux System is the solution for watering your house plants while you are away for short or long periods. This discrete, efficient drip irrigation system lets you travel carefree.

A woman with dark, curly hair, wearing a light-colored button-down shirt and green and white striped shorts, is standing in a lush garden. She is adjusting a Claber irrigation system, which consists of a large, tan-colored cylindrical tank on wheels and a black control unit. The background is filled with green foliage and white flowers. The scene is brightly lit, suggesting a sunny day.

## IRRIGATION THAT HITS THE SPOT

As the most delicate form of irrigation, this system provides delicate drops or a water spray for the plants you love. The most innovative solutions, making sure you don't have to give up on greenery, even when you are away. No matter where you are now or where you are going, Claber will take care of your green space.

# AQUAUNO® TIMERS

Efficient and versatile, Aquauno timers provide the simplest solution to manage watering requirements at the best time and with just the right amount of water. Suitable for your patio, garden or vegetable patch, they are connected directly to the tap and are battery operated, hence no plumbing or electrical connections are needed. The protective cover, perfectly sealed electronic circuits and certified quality guarantee the utmost reliability. Thanks to their compact size, they can also be installed in narrow spaces.

## AQUAUNO PRATICO

**8425**

It's easy to use. Simply press the green button to start the program, then the red button when watering is sufficient.

Pratico memorises the time that has elapsed between the two operations and repeats the program (maximum duration 60 minutes) at the same time every day.

A led indicates all programming phases and can display the times you have set at any moment. You can also set the watering times with a simple pulse code using the same two buttons and the led.

The unit is fitted with a washable stainless steel filter. 3/4" (20-27 mm) tap connector.

It runs off a single 9 V alkaline battery which lasts the entire season.

The electronic components are perfectly sealed.

Operating water pressure from 0,5 to 10 bar.

100% checked and tested.

Bar	0,5	1	2	2,5	3	4	5
l/min	14	19	27	30	33	38	42

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet
8425		2	7 x 14,8 x 20,5	19 x 16,5 x 16	0,005	1,09	280

## AQUAUNO LOGICA

**8422**

An automatic one-line water timer containing 15 preset cycles, selected using an exclusive control rotary knob.

Simply by turning the knob to any one of the 15 numbered notches you can set the program required in a matter of seconds.

All the programs available are summarized in a diagram printed on the cover.

The unit is fitted with a washable stainless steel filter. 3/4" (20-27 mm) tap connector.

One 9 V alkaline battery can power the unit for an entire season.

The electronic components are perfectly sealed.

With an operating pressure range of 0,5 to 10 bar, Aquauno Logica is 100% quality controlled and tested.

Bar	0,5	1	2	2,5	3	4	5
l/min	14	19	27	30	33	38	42

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet

## AQUAUNO SELECT

8423

One-way automatic timer. 63 preset programmes (+ off and 5-minute test). Easy programming by way of 2 knobs: one with 7 frequencies, the other with 9 watering times; simply turn the knobs for the required setting. Equipped with washable filter. 3/4" (20-27 mm) tap connector. Powered by a 9V alkaline battery, which will last an entire season. Electronic components are perfectly sealed. Operating pressure from 0,5 to 10 bar. 100% checked and tested.

Bar	0,5	1	2	2,5	3	4	5

## AQUAUNO VIDEO-2

8428

Using this automatic one-line water timer you can set 2 watering cycles a day. Featuring just three buttons for easy programming, the large display clearly communicates to the user all the information required by means of easy-to-understand symbols and numbers. 2 Water cycle times vary from 1 min to 23 hours and 59 min. Weekly watering cycles may also be programmed with the exception of the days you wish to omit. It is also possible to display the cycles programmed and delete those cycles no longer required. The unit is fitted with a washable stainless steel filter. 3/4" (20-27 mm) tap connector. One 9 V alkaline battery can power the unit for an entire season (complete with digital battery status indicator). The electronic components are perfectly sealed. With an operating pressure range of 0,5 to 10 bar, Aquauno Video-2 is 100% quality controlled and tested.

Bar	0,5	1	2	2,5	3	4	5

## AQUAUNO MIST

8496

Automatic one-way timer, ideal for cyclical automation of both Happy Fresh cooling systems and watering systems on the terrace and in the garden. Easy programming with 2 rotary knobs: one to set the frequency and the other to select the run time. 27 programs can be selected for drip systems (yellow sector, run time from 2 to 90 mins every 12, 24 or 48 hours), 24 possible combinations for Happy Fresh systems (blue quadrant, run time from 5 to 45 seconds, every 1, 3, 5, 10 mins). Option of 5 min function test. Equipped with washable filter. Works with 9 V alkaline battery. Electronic part perfectly sealed. Operating pressure from 0.5 to 10 bars. 100% checked and tested.

Bar	0,5	1	2	2,5	3	4	5

## RAIN SENSOR

90915

Suitable for all watering systems, the rain sensor avoids unnecessary wastage of water by turning the sprinklers off when it is raining. When the internal flow reaches a level of 5 mm of rain per square metre, the system shuts down. Programmed watering automatically resumes when the water in the sensor evaporates. The rain sensor should be installed in an outdoor area exposed to rain using the stainless steel bracket provided.

# TEMPO TIMERS AND DUAL

A backlit LCD display, better protection against weather, immediate or delayed start and connection to the Rain Sensor (with or without wires) are just some of the strengths of this innovative family of digital timers. Tempo and Dual featuring 1 or 2 irrigation lines meet every requirement, thanks to the wide range of programming options in the Select range and the choice of preset solutions in the Logic range. The Tempo Hybrid timer completes the range and is equipped with a photovoltaic panel that makes use of the inexhaustible supply of clean solar energy.

## TEMPO HYBRID

**8487**

One-way automatic timer. Equipped with a built-in photovoltaic panel, this timer is powered by solar energy even without the panel being exposed directly to sunlight. Watering times from 5 seconds to 1 minute and 1 minute to 90 minutes. Up to 4 watering cycles per day. Backlit LCD screen ensuring high visibility under all conditions. Manual on/off button (variable 15-minute test). Electronic components fully insulated, no wires exposed to view. 3/4" (20-27 mm) tap connector with pivoting ring nut. Washable filter. 1.5V AA alkaline battery guarantees continued operation in the event of prolonged light deficiency. Operating pressure 0,5 - 10 bar. Can be connected to standard Rain Sensor (90915) or to RF Rain Sensor (90831) by way of optional interface (8480). 100% checked and tested.

## TEMPO LOGIC

**8483**

One-way automatic water timer. Powered by 2 x 1.5 V AA alkaline batteries, fitted in a rainproof socket. Easy programming with a single digital button. 19 preset programmes (+ off), listed on the front cover. Backlit LCD screen displaying the different functions. Start button allowing immediate or delayed (up to 23 hours) start. On/off button for manual function (5-minute test). Electronic components fully insulated, no wires exposed to view. 3/4" (20-27 mm) tap connector with pivoting ring nut. Washable filter. Operating pressure 0,5 - 10 bar. Can be connected to standard Rain Sensor (90915) or to wireless RF Rain Sensor (90831) - with optional interface (8480). 100% checked and tested.

## TEMPO SELECT

**8486**

One-way automatic water timer. Powered by 2 x 1.5 V AA alkaline batteries, fitted in a rainproof socket. Easy programming with two digital buttons, one selecting 14 watering times, the other 7 frequencies for each line. 98 preset programmes (+ off). Backlit LCD screen displaying the different functions. Start button allowing immediate or delayed (up to 23 hours) start. On/off button for manual function (5-minute test). Electronic components fully insulated, no wires exposed to view. 3/4" (20-27 mm) tap connector with pivoting ring nut. Washable filter. Operating pressure 0,5 - 10 bar. Can be connected to standard Rain Sensor (90915) or to wireless RF Rain Sensor (90831) - with optional interface (8480). 100% checked and tested.

## DUAL LOGIC

**8485**

Two-way automatic water timer, with watering on two independent lines. Powered by 2 x 1.5 V AA alkaline batteries, fitted in a rainproof socket. Easy programming with a single digital button. 19 preset programmes (+ off) for each line, listed on the front cover. Backlit LCD screen displaying the different functions. Start button allowing immediate or delayed (up to 23 hours) start, on both lines. On/off button for manual function (5-minute test).

Electronic components fully insulated, no wires exposed to view. 3/4" (20-27 mm) tap connector with pivoting ring nut. Washable filter. Operating pressure 0,5 - 10 bar. Can be connected to standard Rain Sensor (90915) or to wireless RF Rain Sensor (90831) - with optional interface (8480). 100% checked and tested.

## DUAL SELECT

**8488**

Two-way automatic water timer, with watering on two independent lines. Powered by 2 x 1.5 V AA alkaline batteries, fitted in a rainproof socket. Easy programming with two digital buttons: one selecting 14 watering times, the other 7 frequencies for each line. 98 preset programmes (+ off) for each line. Backlit LCD screen showing the different functions.

Start button allowing immediate or delayed (up to 23 hours) start on both lines. On/off button for manual function (5-minute test). Electronic components fully insulated, no wires exposed to view. 3/4" (20-27 mm) tap connector with pivoting ring nut. Washable filter. Operating pressure 0,5 - 10 bar. Can be connected to standard Rain Sensor (90915) or to wireless RF Rain Sensor (90831) - with optional interface (8480). 100% checked and tested.

## RAIN SENSOR RF

**90831**

Rain sensor operating on radio frequency. Suspends watering in case of rainfall. Dialogues with Tempo and Dual timers, the radio frequency system and Hydro-4. The RF Rain Sensor is designed for open air installation, exposed to rainfall, using a special stainless steel bracket supplied with the product.

No electrical connections are required:

RF coverage up to 30 m. Powered by 2 x 1.5 V AA alkaline batteries.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet

## RF RAIN SENSOR INTERFACE

**8480**

Connection interface for RF Rain Sensor (90831), used with Dual and Tempo water timers. In case of rainfall, watering is suspended by radio control, without any use of electrical connections. RF coverage up to 30 m.

# FEEDING, MAIN AND DRIPPER TUBES

Sturdy, algae- and UV-resistant: with Claber's main and feeding hoses, you can easily create any drip irrigation or micro-irrigation system. To help you water hedges, borders and flowerbeds easily and uniformly, Claber offers dripper and soaker hoses.

Simply connect up the hose to the tap and start saving time and precious water right away! Alternatively, why not use them with a Claber battery-operated timer to water your plants at the ideal time with just the right amount of water?

## FEEDING TUBE 5 m

90371

1/4" (4 - 6 mm) tube for branching off the main tube.  
Supplies the in-line and end-of-line drippers.  
Flexible and resistant to algae formation, low temperatures and solar radiation.

SOAKER HOSES ARE IDEAL  
FOR WATERING YOUR VEGETABLE  
PATCH EVENLY.

# TRIPLE-SOAKER HOSES

For a practical and versatile irrigation experience, Claber presents Triply, a range of triple-soaker hoses equipped with regular micro-punctures and a double-sided core. Thanks to its triple line, the triple-soaker hose releases countless jets of water and can be used to spread a gentle, calibrated rain (with the holes facing up), or to ensure the right humidity of the earth (with the holes facing down). The Quick-Click socket ensures fast installation, making it the ideal partner for watering borders, flowerbeds and small vegetable patches or gardens.

## THE IDEAL PARTNER

for watering borders, flowerbeds and small vegetable patches.

## TRIPLY 7,5 m

**90376**

Triple-soaker hose with regular micro-punctures on one side. Laid out with the holes facing up, it releases countless jets. With the holes facing down it waters the ground by saturation. Equipped with a Quick-Click socket to connect to the water outlet.

Operating pressure from 1 to 3 bar. Water flow rate: from 3 l/min to 8 l/min.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet	
90376		3	31 x 4 x 29	40 x 13 x 40	0,02	2,43	108	8 000625 903764

## TRIPLY 15 m

**90377**

Triple-soaker hose with regular micro-punctures on one side. Laid out with the holes facing up, it releases countless jets. With the holes facing down it waters the ground by saturation. Equipped with a Quick-Click socket to connect to the water outlet.

Operating pressure from 1 to 3 bar. Water flow rate: from 5 l/min to 13 l/min.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet	
90377		3	38 x 4 x 38	40 x 13 x 40	0,02	4,20	108	8 000625 903771

# BLOCK-SYSTEM RAINJET®

## BLOCK-SYSTEM CONNECTORS AND COUPLINGS: RAINJET EVOLUTION

A complete family of compression connectors and couplings for 1/2" hoses, bringing innovative features to the extensive range of RainJet drippers and accessories.

The special locking system with the characteristic Block-System ring nut has been designed to guarantee a perfect seal that lasts, with no water leakage and no risk of impurities entering the system. It helps to make any DIY system, like Colibrì micro-irrigation, even easier to set up.

### PRESSURE REDUCER

**91040**

Automatically reduces and maintains inlet water pressure at a constant pressure of 1 bar (max. 10 bar).  
Connects to 3/4" (20-27 mm) or 1/2" (15-21 mm) thread.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
91040		4	10,2 x 20,6 x 4	25 x 19 x 10	0,005	0,40	576	8 000625 910403

### DOUBLE TAP CONNECTOR

**91045**

With double independent adjustment for connection of two lines to a single water tap.  
Screwed onto taps with 3/4" (20-27 mm) or 1/2" (15-21 mm) thread.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
91045		8	10,2 x 20,6 x 5,3	28 x 25 x 13	0,009	0,95	576	8 000625 910458

### 3/4" (20-27 mm) MALE THREADED TWO-WAY ADAPTER

**91589**

With double independent adjustment.  
For taps with 3/4" (20-27 mm) thread; enables assembly of two electronic timers, pressure reducers, etc.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
91589		5	15,4 x 24 x 5,5	28 x 25 x 19	0,013	1,32	240	8 000625 915897

### MULTI-THREAD TAP CONNECTOR 3/4" (20-27 mm) - 1/2" (15-21 mm)

**91002**

To connect automatic "Quick-Click" tap fittings; female 3/4" (20-27 mm) thread and 1/2" (15-21 mm) adaptor.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
91002		14	7,9 x 15,7 x 3,5	25 x 19 x 10	0,005	0,49	2016	8 000625 910021

### 3/4" (20-27 mm) AUTOMATIC ADAPTOR

**91494**

Used to connect the pressure reducer, 1/2" (13-16 mm) main hose adaptor, 1/4" (4-6 mm) threaded hose adaptor, and other accessories with 3/4" (20-27 mm) female thread to electronic timers.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
91494		10	7,9 x 15,7 x 3,5	25 x 19 x 10	0,005	0,39	1440	8 000625 914944

### AUTOMATIC COUPLING

**99009**

**91009**

To connect 1/2" (13-16 mm) main tube to an outlet with automatic tap fitting.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
99009		25	3,5 x 7 x 3,5	10 x 39 x 13	0,005	0,86	3200	8 000625 990092
91009		10	7,9 x 15,7 x 4,5	25 x 19 x 10	0,005	0,55	1440	8 000625 910090

### IN-LINE FILTER FOR 1/2" (13-16 mm) HOSE

**91011**

For water filtering in dripper or microirrigation systems.  
Installed in-line, directly on the 1/2" (13-16 mm) main hose.  
Easy-to-clean mesh filter.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
91011		4	10,2 x 20,6 x 3,4	25 x 19 x 10	0,005	0,35	576	8 000625 910113

### 1/2" (13-16 mm) HOSE THREADED ADAPTOR

**99013**

**91013**

For direct connection of 1/2" (13-16 mm) tubes to taps with 3/4" (20-27 mm) or 1/2" (15-21 mm) thread.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
99013		25	3,5 x 5,5 x 3,5	10 x 39 x 13	0,005	0,74	3200	8 000625 990139
91013		14	7,9 x 15,7 x 4	25 x 19 x 10	0,005	0,55	2016	8 000625 910137

### 1/2" (13-16 mm) HOSE 3/4" (20-27 mm) 1" (26-34 mm) THREADED COUPLING

**99015**

**91015**

To connect 1/2" (13-16 mm) main tube to an outlet with 3/4" (20-27 mm) or 1" (26-34 mm) female thread (e.g. Solenoid valves).

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
99015		25	4,2 x 5,75 x 4,2	10 x 39 x 13	0,005	0,75	3200	8 000625 990153
91015		10	7,9 x 15,7 x 4,5	25 x 19 x 10	0,005	0,42	1440	8 000625 910151

### 1/2" (15-21 mm) THREADED 3-WAY CONNECTOR

**99017**

**91017**

Used for connecting underground Colibrì micro-sprinklers in series (cod. 90210 - 90220 - 90230) with 1/2" (13-16 mm) main hose.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
99017		25	10 x 4,9 x 2,8	10 x 39 x 13	0,005	0,81	3200	8 000625 990177
91017		10	10 x 20,6 x 3,4	28 x 25 x 13	0,009	0,61	720	8 000625 910175

### 1/2" (15-21 mm) THREADED ELBOW

**99019**

**91019**

Used for end line connection of Colibrì underground micro-sprinklers (cod. 90210 - 90220 - 90230) with 1/2" (13-16 mm) main hose.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
99019		25	6,3 x 4,8 x 2,8	10 x 39 x 13	0,005	0,60	3200	8 000625 990191
91019		12	7,9 x 15,7 x 3,0	25 x 19 x 10	0,005	0,40	1728	8 000625 910199

### 1/2" (15-21 mm) THREAD ELBOW CONNECTOR

**99021**

**91021**

For elbow connection of Colibrì micro-sprinklers (cod. 90210 - 90220 - 90230) with 1/2" (13-16 mm) main hose.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
99021		25	6,55 x 5,65 x 6,55	10 x 39 x 13	0,005	1,05	3200	8 000625 990214
91021		6	7,9 x 15,7 x 4,5	25 x 19 x 10	0,005	0,37	864	8 000625 910212

### 1/2" (13-16 mm) COUPLING

**99023**

**91023**

Enables coupling of two 1/2" (13-16 mm) main tube sections.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
99023		25	3 x 8 x 3	10 x 39 x 13	0,005	0,66	3200	8 000625 990238
91023		12	7,9 x 15,7 x 3,0	25 x 19 x 10	0,005	0,45	1728	8 000625 910236

### 1/2" (13-16 mm) ELBOW COUPLING

**99025**

**91025**

Enables coupling of two 1/2" (13-16 mm) main tube sections.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
99025		25	6,45 x 6,45 x 2,8	10 x 39 x 13	0,005	0,70	3200	8 000625 990252
91025		12	7,9 x 15,7 x 3,0	25 x 19 x 10	0,005	0,47	1728	8 000625 910250

## 1/2" (13-16 mm) CONNECTOR WITH 4 1/4" (4-6 mm) OUTLETS

99027

91027

Useful for allowing up to four drippers inside pots or large flower containers.  
Ideal for flower-beds or border micro irrigation systems, branching the lines from a single water tap.  
Plugs supplied for closing any outlets not used.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
99027		25	2,8 x 10 x 2,8	10 x 39 x 13	0,005	0,80	3200	8 000625 990276
91027		4	10 x 20,6 x 3,4	25 x 19 x 10	0,005	0,27	576	8 000625 910274

## 1/2" (13-16 mm) TEE

99029

91029

Enables coupling of three 1/2" (13-16 mm) main tube sections.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
99029		25	10 x 6,5 x 2,8	10 x 39 x 13	0,005	0,94	3200	8 000625 990290
91029		10	10 x 20,6 x 3,5	28 x 25 x 13	0,009	0,65	720	8 000625 910298

## SHUT-OFF VALVE

99033

91033

For water flow supply, shut-off and adjustment.  
For installation between two 1/2" (13-16 mm) main tube sections.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
99033		25	10 x 4,6 x 2,8	10 x 39 x 13	0,005	0,92	3200	8 000625 990337
91033		10	10 x 20,6 x 3,3	28 x 25 x 13	0,009	0,64	720	8 000625 910335

## END STOPPER

99035

91035

To shut off water flow at the end of 1/2" (13-16 mm) main tube.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
99035		25	2,8 x 4 x 2,8	10 x 39 x 13	0,005	0,46	3200	8 000625 990351
91035		12	7,9 x 15,7 x 3,5	25 x 19 x 10	0,005	0,36	1728	8 000625 910359

## THREADED DRAINAGE VALVE

91037

Used for automatic drainage of the hose circuit.  
Recommended for zones subject to cold winters.  
With connector for 1/2" (13-16 mm) hose.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
91037		5	10 x 20,6 x 4	25 x 19 x 10	0,005	0,34	720	8 000625 910373

# RAINJET® CONNECTORS AND ACCESSORIES

Couplings, tap connectors, spikes and drainage valve. The RainJet accessories can be used to create any drip or micro-irrigation system stress-free, as well as helping you to make any changes to the system over time, should your needs or plants change. All couplings and accessories are connected simply using pressure, with no need for any tool. They are perfectly watertight. Using linear, elbow or tee connectors, you can create any layout you like. The RainJet accessories are ideal for creating any type of drip irrigation system, with a wide range of RainJet drippers to choose from. They can also be used to set an easy underground micro-irrigation circuit with Colibri System. A must-have to meet the needs of a constantly evolving sector!

## IN-LINE FILTER FOR 1/2" (13-16 mm) HOSE

91031

For water filtering in drip or micro irrigation systems. Installed in-line, directly on the 1/2" (13-16 mm) main hose. Easy-to-clean mesh filter.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
91031		5	10 x 20,6 x 3,4	25 x 19 x 10	0,005	0,28	720	8 000625 910311

### RAINJET CONNECTORS AND ACCESSORIES

RainJet couplings and accessories are connected easily using pressure, with no need for any tools, and they are watertight.

### RAINJET BLOCK-SYSTEM

With the innovative Block-System compression connectors installation could not be any easier.

**1/2" (13-16 mm) HOSE  
THREADED ADAPTOR****91347**

For direct connection of 1/2" (13-16 mm) tubes to taps with 3/4" (20-27 mm) or 1/2" (15-21 mm) thread.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet	
91347		10	7,9 x 15,7 x 3,5	25 x 19 x 10	0,005	0,37	1440	8 000625 913473

**1/2" (13-16 mm) - 1/4" (4-6 mm)  
HOSE THREADED ADAPTOR****91345**

For direct connection of 1/2" (13-16 mm) and 1/4" (4-6 mm) tubes to taps with 3/4" (20-27 mm) or 1/2" (15-21 mm) thread.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet	
91345		10	7,9 x 15,7 x 3,5	25 x 19 x 10	0,005	0,37	1440	8 000625 913459

**1/2" (13-16 mm) HOSE 3/4" (20-27 mm)  
1" (26-34 mm) THREADED COUPLING****91066**

To connect 1/2" (13-16 mm) main tube to an outlet with 3/4" (20-27 mm) or 1" (26-34 mm) female thread (e.g. Solenoid valves).

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet	
91066		10	7,9 x 15,7 x 4,2	25 x 19 x 10	0,005	0,36	1440	8 000625 910663

**1/2" (15 - 21 mm) THREADED  
3-WAY CONNECTOR****91072**

Used for connecting underground Colibri micro-sprinklers in series (cod. 90210 - 90220 - 90230) with 1/2" (13-16 mm) main hose. Blister of 2 pcs.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet

1/2" (13-16 mm)  
END STOPPER**91086**

To shut off water flow at the end of 1/2" (13-16 mm) main tube.  
Blister of 4 pcs.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
91086		15	7,9 x 15,7 x 2	25 x 19 x 10	0,005	0,44	2160	8 000625 910861

**1/2" (13-16 mm) SHUT-OFF VALVE****91280**

For water flow supply, shut-off and adjustment.  
For installation between two 1/2" (13-16 mm) main tube sections.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet	
91280		10	7,9 x 15,7 x 4	25 x 19 x 10	0,005	0,32	1440	8 000625 912803

**TUBE CLAMP****91096**

For use when pressure in the 1/2" (13-16 mm) main tube exceeds 1,5 bar.  
Blister of 10 pcs.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet	
91096		10	7,9 x 15,7 x 2,8	25 x 19 x 10	0,005	0,39	1440	8 000625 910960

**1/2" (13-16 mm) SUPPORT STAKE****99090**

Enables secure ground fixture of the 1/2" (13-16 mm) main tube.  
Blister of 8 pcs.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet	
99090		4 x 20	13 x 22 x 7	20 x 39 x 13	0,010	1,40	288	8 000625 990900
91090		10	15,4 x 24 x 3	28 x 25 x 19	0,013	1,72	480	8 000625 910908

**THREADED DRAINAGE VALVE****90920**

Used for automatic drainage of the hose circuit.  
Recommended for zones subject to cold winters.  
With connector for 1/2" (13-16 mm) hose.  
Blister of 1 pc.

## 1/4" 2-WAY COUPLING

**99155**

**91155**

Easy grip and watertight seal, guaranteeing no leakage.  
Used to branch off 1/4" (4-6 mm) feeding tube sections from 1/2" (13-16 mm) main tube or to join two feeding tube sections.  
Blister of 10 pcs.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet

## 1/4" 4-WAY COUPLING

**91145**

Easy grip and watertight seal, guaranteeing no leakage.  
Enables coupling of four 1/4" (4-6 mm) feeding tube sections.  
Blister of 10 pcs.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet

## HOLE PLUGS

**91170**

Easy grip and watertight seal, guaranteeing no leakage.  
For sealing holes on 1/2" (13-16 mm) main tube or ends of 1/4" (4-6 mm) feeding tube.  
Blister of 10 pcs.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
91170		13	7,9 x 15,7 x 2	25 x 19 x 10	0,005	0,40	1872	8 000625 911707

1/4" SHUT-OFF VALVE

91270

For 1/4" (4-6 mm) feeding tube.  
Enables water flow adjustment and shut-off.  
Blister of 5 pcs.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
91270		10	7,9 x 15,7 x 2	25 x 19 x 10	0,005	0,35	1440	

HOLE PUNCHER/SPANNER

91185

Used to punch holes in 1/2" (13-16 mm) main tube.  
Also enables tightening and adjustment of micro-sprinklers.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
91185		10	7,9 x 15,7 x 2	25 x 19 x 10	0,005	0,26	1440	

1/4" SUPPORT STAKE

99190

91190

Ideal to secure ground fixture of the 1/4" (4-6 mm) feeding tube or installation in plant pots.  
Blister of 15 pcs.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet

# RAINJET® KIT

RainJet kits include everything you need to set up a drip-irrigation system for your terrace or vegetable patch by yourself: main and feeding hoses, drippers, couplings and – for the timer kits – a battery-powered water timer. RainJet kits can be used to water between 20 and 60 plants, depending on the chosen solution, and they can be extended at any time with additional RainJet components. A highly practical solution that guarantees well-balanced irrigation!

## ORTO DRIP KIT

**90767**

This ready-to-use kit is the best solution for watering your vegetable garden, adjusting the flow and adapting it to the different plants needs.

This kit contains all the components for setting up 6 irrigation zones and watering up to 60 plants, with adjustable drippers (40 end-of-line and 20 shrubblers) and 25 m of main hose.

# RAINJET® MICRO-SPRINKLERS

Claber micro-irrigation is inspired by soft spring rains: tiny droplets, precisely distributed, fall gently onto leaves, crops and flowers, even the most delicate ones, always delivering the optimum amount of water and preventing any waste. The micro-sprinklers are easy to install straight onto feeding hoses and main hoses, or onto suitable rods to raise them to the right height. RainJet micro-sprinklers, a gentle caress of water for healthier, more beautiful plants.

180° MICRO-SPRINKLER

Fine rain effect

ECO-COMPATIBLE MATERIALS

# AQUA-MAGIC® SYSTEM

Plants and flowers enthusiasts do not always have a tap available to water their pots on their terrace or balcony. Claber has the answer to this frequent problem: Aqua-Magic System. This ready-to-use kit allows you to set up a drip irrigation system without needing to connect to the power or water mains. Everything you need comes in the kit: a special timer with a built-in pump and a photovoltaic panel, drippers and all the accessories for watering up to 20 pots.

Aqua-Magic System can be used together with any standard water recipient or with the Aqua-Magic Tank, a special foldable tank that can hold up to 80 litres of water. It is easy to transport and assemble and takes up minimum space.

## AQUA-MAGIC® SYSTEM

The magic of water with no taps  
and no electrical power sockets.

PLENTY OF CAREFREE DAYS!  
USE WITH AQUA-MAGIC TANK  
OR ANY STANDARD WATER RECIPIENT

IDEAL FOR HANGING VEGETABLE  
GARDENS AND FLOWERING PLANTS,  
EVEN ON DIFFERENT LEVELS

POWERED BY SUNLIGHT THANKS TO  
THE PHOTOVOLTAIC PANEL  
THAT RECHARGES THE BATTERIES

WEBSITE

QUICK AND EASY TO PROGRAMME  
WITH TWO SIMPLE DIALS

## AQUA-MAGIC SYSTEM

**8063**

Independent ready-to-use drip kit. It includes timer, photovoltaic panel and built-in pump to draw water from a tank, filter and deliver it to 20 drippers.

Inspectable filter for easy cleaning.

The photovoltaic panel absorbs the light energy and turns it into electrical energy which is accumulated in 2 rechargeable AA 1.2V NiMH 1800mAh batteries (not included).

A specific led reports the battery level. 54 possible irrigation solutions, which can be set with just 2 rotating knobs: one with the frequencies (between 1 and 7 days), the other with the amount of water that you wish to deliver with each dripper (between 40ml and 200ml). Optional manual irrigation: 100ml per dripper (the programme remains stored).

It can be used with any tank.

The kit contains:

- 1 solar timer-pump
- 1 anti-siphon flow blocking valve at the end of irrigation
- 1/4" suction filter
- 1 bracket with screws and plugs for wall-mounting
- 20 self-regulating drippers
- 20m of 1/4" (4-6 mm) feeding tube
- 20 1/4" support stakes
- 5 1/4" 3-way couplings
- 6 hole plugs

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet
8063		1	29,5 x 30,5 x 7,5	29,5 x 30,5 x 7,5	0,007	1,26	108

## AQUA-MAGIC TANK

**8061**

Folding tank with a capacity of 80 litres for Aqua-Magic System (code 8063).

Easy assembly with polypropylene sleeves.

Sturdy and stable thanks to the easy-to-assemble aluminium frame with special anti-scratch covering. Equipped with a special coupling bar to position Aqua-Magic System.

Dimensions when open: 40 x 40 x 85 cm.

At the end of the season, it can be tidily stored, taking up minimum space.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet
8061		1	47 x 13 x 56	47 x 56 x 13	0,034	3,15	28

## SPARE DRIPPERS

**8064**

Spare in-line Aqua-Magic drippers for localised irrigation.

Pack of 5 pcs.

# INDOOR PLANTS

House plants make our homes more beautiful but they need the right care: moderate watering that's steady, with no long breaks, and without over-watering.

Claber has designed a range of solutions for house plants, that suit all situations.

Systems that don't need to be connected to a tap and that water plants every day with the right amount of water, guaranteeing up to 28 days of complete autonomy: with Claber it's easy to surround yourself with green delights, even at home.

## IDRIS® SPIKE

Individual pot watering that's autonomous and perfectly calibrated

## AQUALUX® SYSTEM

The best system for watering up to 20 pots daily without a tap

## OASIS® EVOLUTION

The definitive watering solution for when you're out or on holiday

# IDRIS® SPIKE

Idris Spike is the exclusive sprinkler designed to water pot plants steadily and with the right amount of water. It's the ideal solution for when you are away from home for a long period, but it is also useful when you are at home. It guarantees your plants' well-being, without you needing to water them by hand. You can use any normal plastic bottle with Idris Spike and you do not need to connect it to the power mains. It guarantees up to 20 days of autonomous watering. Made from a tough plastic material that is resistant to knocks and limescale, complete with drippers with different flow rates, and designed to be ultra-sturdy, Idris Spike is ideal for all plants: at home, on the balcony and in the office.

DRIP IRRIGATION

## IDRIS SPIKE

8052

Automatic dripper for pot plants. New conical connector suitable for standard plastic bottles up to 2 litres. Supplied complete with 2 nozzles, rated 10 and 15 cl. The spike is anchored into the soil, near the plant roots. Inspectable and washable under running water.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet
8052		12	16 x 30 x 4	25 x 59 x 19	0,028	1,60	288

# OASIS® EVOLUTION

Even more versatile and high-performing, unbeatably practical and reliable: Oasis Evolution is the new version of the Oasis water distributor.

With no need of a tap or an electrical power supply, Oasis Evolution enables you to water up to 20 pots for several days. All you have to do is set up a simple drip-irrigation line using the drippers and accessories provided.

There is a handy dial for viewing and selecting 1 of the 4 different watering programmes displayed on the backlit screen. Delayed starts are also possible.

Perfect for watering house plants when you go on holiday.

## OASIS EVOLUTION

**8054**

Fully independent water-distributor, ready to use in few minutes and extremely compact. No need of connections to a tap or power mains. Oasis Evolution contains 25 litres of water and provides waste-free drip irrigation for up to 20 pots running on a daily cycle. Four different programmes (7, 14, 21, 28 days of autonomy), selected with a simple dial. Start button to start the programme immediately or with a delay of up to 23 hours. The backlit LCD display shows the selected programme, duration of the irrigation cycle in progress, any programmed delay, and the time remaining until the next irrigation cycle. Compact, elegant design that overlooks no detail. Operated by 2 x AA 1.5 V batteries (not included). Supplied with 10 metres of PVC feeding hose, 20 drippers and 20 hose stakes.

### PROGRAMME TABLE

## SPARE DRIPPERS

**8059**

Spare in-line Oasis Evolution drippers for localised irrigation. Pack of 5 pcs.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet
8059		10	8 x 10 x 2,5	13 x 19 x 10	0,002	0,27	2880

# AQUALUX® SYSTEM

Aqualux System is the new versatile system by Claber, for watering potted plants every day without the need of a connection to a tap.

Aqualux can be assembled in just a few minutes and guarantees up to 4 weeks of autonomy, thanks to its large 30-litre tank.

The integrated electric pump operates an irrigation system with fixed-flow drippers, which can water up to 20 pots. There are 4 different programmes to choose from with a practical dial, the option to delay the start and a backlit display that makes programming simple and accurate.

The power supply system is innovative, with a USB adapter to connect to the mains, or 2 x AA rechargeable batteries that guarantee operation for the full duration of the programme, even when there is no electrical power supply.

A versatile, reliable and easy-to-use solution to create a true drip irrigation system.

WEBSITE

## AQUALUX® SYSTEM

**8062**

Water distributor with integrated timer and pump to create a drip irrigation system for up to 20 pots. Suitable for house plants as well as for terraces and balconies.

The system can be powered electrically by a USB adaptor (included), or 2 rechargeable AA 1.2V NiMH batteries, min. 2400 mAh (not supplied).

Foldable water tank in thick PVC, 30-litre capacity.

Handy opening at the top for filling. No tools required to assemble the upright supports.

Four different programmes (7, 14, 21, 28 days of autonomy), selected with a simple dial.

Start button to start the programme immediately or with a delay of up to 23 hours.

The backlit LCD display shows the selected programme, the duration of the watering cycle in progress, any programmed delay and the time remaining until the next irrigation cycle.

Contains:

- 20 metres of PVC feeding hose
- 20 drippers
- 20 hose stakes
- 5 tees
- 6 end-of-line plugs.

# UNDERGROUND IRRIGATION

## AT THE CUTTING EDGE

Claber research efforts and experience bring all of the benefits of professional underground irrigation into the domestic realm.

With a wide range of products and solutions, you can create a highly efficient made-to-measure system with minimal effort.

Pop-up sprinklers designed for spaces of all sizes, accessories for setting up any type of installation, and practical and versatile programming from anywhere, even where there is no mains electricity.

With Claber it is now even easier to save water, add value to your home and create a thriving garden.

An overhead view of a group of seven people sitting around a long, rustic wooden dining table in a vibrant green garden. The table is set with white plates, glasses of water and wine, and small floral centerpieces. The people are dressed in casual summer attire. The garden is well-maintained with a gravel path and flowering plants visible on the right side.

Keep your garden green even during the scorching summer months.

Choose a high-performing automated solution.

#### MASTERFUL IRRIGATION, AVAILABLE TO ALL

Pop-up sprinklers bring professional quality and performance to any garden. This wide range of sprinklers with an easy-to-adjust jet allow you to water just where is needed, for a perfectly kept garden with no wasted water.

#### SMART INNOVATION

More tech, more flexibility, less hassle. The innovative timers and control units by Claber allow you to manage any garden installation, from the smallest to the largest.

#### A TECHNOLOGICAL HUB IN YOUR GARDEN

A rich technology hub to help you manage small and large gardens alike, Hydro-4 holds a timer and 4 solenoid valves in a small valve box, serving up to four independent irrigation lines.

## THE FRONTIER OF INNOVATION

Claber has made underground irrigation simple. Hi-tech, efficient products designed even for inexperienced hands mean no one has to miss out on the outstanding performance of an automated system. And your garden will always be a beautiful green oasis.

# COLIBRI® SYSTEM

With the Colibri System, Claber brings all of the advantages of underground irrigation into small green spaces too! It is easy to use, saves on water, keeps your lawn and plants looking good and healthy, and makes the most of your garden. Colibri is easy to install, with no need to dig large holes or connect up to the power mains. All you need is one of Claber's battery-powered timers connected to the tap to make sure your garden has just the right amount of water at the right time, even when you are away or on holiday. And with the new jet adjustment, you just need two fingers for perfect, targeted irrigation with no waste!

EXAMPLE OF SYSTEM WITH THE COLIBRÌ STARTER KIT

MAIN REQUIREMENTS:

- Pressure: minimum 2.5 bars
- Flow rate: at least 21 l/min
- Garden shape: regular (square or slightly rectangular; e.g. 7 x 7 m, 8 x 7 m, 8 x 8 m)
- Water supply: water mains

FEATURES:

- The kit comes with fixed angle sprinklers (1 x 360°, 4 x 180°)
- Colibrì sprinklers have a jet of min. 3.5 m - max. 4.5 m
- The area behind the sprinklers is also watered for about 30-40 cm.

The underground micro-irrigation system created with the Colibrì Starter Kit can easily be automated by using a Claber one-way tap timer (Aquauno, Aquauno Plus and Tempo, from page 88).

## TURBO-JET 80°-360° - 3"

90264

80°-360°

Dynamic pop-up sprinkler featuring low water consumption.  
Ideal for small gardens, even with low water pressure.  
Special internal gear mechanism rotating at constant speed, guaranteeing balanced watering.  
Working arc adjustable from 80° to 360°. Jet range adjustable by turning the ring nut.  
Inspectable and washable filter. Standard 1/2" (15-21 mm) threaded base.  
Height from ground 3" (cm 7,5).  
Packs of 12 pcs.

# MULTIPLA TIMERS

Multipla timers are the perfect synthesis of technology, design, ease of use and versatility, with the option to choose from different preset programmes on 6 independent lines, simply by turning a dial.

The large LCD display shows how many minutes remain until the next irrigation cycle and the countdown for the irrigation cycle in progress.

Multipla is made of materials resistant to humidity, UV rays and weathering, and comes in two versions: with a 24 V transformer or operated by a 9 V alkaline battery, which lasts for the whole season.

Multipla brings underground irrigation to areas without mains electricity connections.

## MULTIPLA AC 230/24 V LCD

**8058**

Easy-to-program 6-line electronic timer: just turn the 6 dials to set the required irrigation schedule: 5 - 10 - 15 - 20 - 30 - 60 minutes.

There is a frequency control for selecting the repetition of the watering programme at predefined intervals: 8h - 12h - 24h - 2 days - 3 days - 4 days - 7 days.

There is a start button for immediate activation of the programme or the manual function for the system test phase - "start + ... hours" button for a 23-hour delay in activation of the programme.

An intermittent LED system indicates valve opening.

A safety timer delays valve opening by 5 seconds. Pump control. 9 V buffer battery.

External 220 - 24 V transformer included.

Compliant with CE standards.

Designed for direct connection to the Rain Sensor.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet
8058		1	22 x 22 x 12,5	22 x 22 x 12,5	0,004	1,42	84

## MULTIPLA DC 9 V LCD

**8060**

Easy-to-program 6-line electronic timer: just turn the 6 dials to set the required irrigation schedule: 5 - 10 - 15 - 20 - 30 - 60 minutes.

There is a frequency control for selecting the repetition of the watering programme at predefined intervals: 8h - 12h - 24h - 2 days - 3 days - 4 days - 7 days.

There is a start button for immediate activation of the programme or the manual function for the system test phase - "start + ... hours" button for a 23-hour delay in activation of the programme.

An intermittent LED system indicates valve opening.

A safety timer delays valve opening by 5 seconds.

Powered by two 9 V alkaline batteries, sufficient for an entire season.

Compliant with CE standards.

Designed for direct connection to the Rain Sensor.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet
8060		1	22 x 22 x 7,5	22 x 22 x 7,5	0,004	0,88	144

# AQUA-HOME 4-6-8

Aqua-Home is the underground irrigation timer designed to guarantee professional performance in any type of garden. With its compact and elegant design, it is easy to install and use; it is equipped with a large LCD display, 4 buttons and a dial to manage watering on up to 8 lines. What's more, it is innovative and ultra reliable! Instead of a traditional buffer battery, it has a super capacitor (SuperCap) with a practically unlimited duration. SuperCap stores enough energy to keep the timer settings stored if the power supply is temporarily interrupted.

INFO

## AQUA-HOME 4-6-8

**8022**

A timer for up to 8 watering lines that is easy to install and use, with a dial, 4 buttons and a large LCD display which makes the set data easy to read. The watering duration can be set (from 1 minute to 4 hours and 15 minutes) for each line, with two independent watering cycles and up to 4 daily starts per cycle. Offering useful functions such as setting the irrigation frequency (weekly, cyclical from 1 to 12 days, even/odd days), Water Budget to change watering from between 0% and 200%, Rain-Stop when it rains. Manual irrigation is also possible and can be customised between 5 minutes and 4 hours and 15 minutes. Aqua-Home is equipped with an internal capacitor (SuperCap), which stores energy when the timer is operating normally. This means it retains the timer settings, should the electrical power supply temporarily fail (saved in the memory for up to 2 days). Irrigation can also be set to semi-automatic. 230 V AC external transformer included. Designed for direct connection to the Rain Sensor (90915).

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet
8022		1	22 x 22 x 7,5	22 x 22 x 7,5	0,004	0,93	144

## RAIN SENSOR

**90915**

Suitable for all watering systems, the rain sensor avoids unnecessary wastage of water by turning the sprinklers off when it is raining. When the internal flow reaches a level of 5 mm of rain per square metre, the system shuts down. Programmed watering automatically resumes when the water in the sensor evaporates. The rain sensor should be installed in an outdoor area exposed to rain using the stainless steel bracket provided.

90915		2	8,5 x 11 x 20,5	25 x 19 x 10	0,005	0,64	288

# HYDRO-4®

WEBSITE

Modern lifestyles and ways of living are reflected in a steady move towards small- and medium-sized gardens.

When it comes to watering these green spaces, Claber has come up with the answer: Hydro-4.

A single watertight valve box with built-in battery-powered timer and 4 solenoid valves, ready for quick DIY installation.

HYDRO-4 can be installed above-ground or underground and controls up to 4 underground, drip or above-ground irrigation lines for your lawn, flowerbed or vegetable patch. Unparalleled versatility!

Hydro-4 is IP68 certified and set up for a cableless connection with the RF Rain Sensor.

## HYDRO-4

Irrigation made to measure

SIMPLE PROGRAMMING  
JUST 3 BUTTONS

NO ELECTRICAL CONNECTIONS,  
IDEAL AS A DIY PROJECT

A SINGLE SOLUTION  
4 IRRIGATION LINES

PRACTICAL AND VERSATILE  
FOR GARDENS UP TO 700 m<sup>2</sup>

COMPATIBLE WITH UNDERGROUND,  
ABOVE-GROUND AND DRIP IRRIGATION

UNDERGROUND IRRIGATION

## HYDRO-4

90829

Preassembled valve box incorporating 4 solenoid and a timer.  
Power provided by two 1.5 V AAA batteries, enough to last an entire season.  
On/off control for up to 4 independent underground or drip irrigation lines.  
Easy programming procedure, using just 3 buttons and a large size display.  
Watering time 1 to 60 minutes. 2 programs for each outlet, up to 8 watering cycles per day.  
Weekly setting, allowing exclusion of single days.  
Manual test of 5 minutes duration, variable in the same way as for watering times.  
A perfectly sealed IP 68 unit.  
Protective cover and buttons in bi-material rubber.  
Facility of viewing and deleting programs entered for each line.  
3/4" M (20-27 mm) connections on both inlet and outlet sides.  
Wireless connection to radio frequency Rain Sensor.  
5 threaded caps provided for unused outlets.  
4 solenoids valves.

Watering line flow rates: max 25 l/min at 2,5 bar.  
Operating pressure: min 1 - max 6 bar.  
Operating temperature: 3 - 60 °C.  
Dimensions: diameter 200 - height 153 mm.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet
90829		1	25 x 23 x 17	25 x 23 x 17	0,010	2,50	60

## RF RAIN SENSOR

90831

Rain sensor operating on radio frequency. Suspends watering in case of rainfall.  
Dialogues with Tempo and Dual timers, the radio frequency system and Hydro-4.  
The RF Rain Sensor is designed for open air installation, exposed to rainfall, using a special stainless steel bracket supplied with the product. No electrical connections are required: RF coverage up to 30 m. Powered by 2 x 1.5 V AA alkaline batteries.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet
90831		1	8,5 x 11 x 20,5	8,5 x 11 x 20,5	0,002	0,23	288

# PROGRAMMABLE UNITS

The "Elettra" programmable solenoid valve is a practical and reliable solution for programming irrigation systems without an electrical power supply.

As an alternative to valve box installation, there is a control unit powered by a 9 V alkaline battery, which allows you to open and close individual solenoid valves from the outside.

The new removable control units are also designed to guarantee IP 68 grade protection, the highest rating against water, solids and dust.

## CONTROL UNIT

**90821**

From a field station, the unit will pilot the opening and closing movements of one or two 9 V bistable solenoid valves installed in valve boxes. Protected by 100% sealed cover operates also in total submersion. Easy to program with three keys only. Irrigation time from 1 min to 23 h. 59 min. With option of up to 6 irrigation cycles per day. Manual and weekly programming with exclusion of specific weekdays as required. Connected to a rain sensor (code 90915), the unit will suspend watering operations in the event of rainfall greater than 5mm per square metre. Operates with a 9 V battery, sufficient for an entire season. The control unit can be wall-mounted, using a special bracket, for ease of programming and practical maintenance.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet
90821		1	11 x 11,5 x 19,5	11 x 19,5 x 11,5	0,002	0,58	240

## 1" (26-34 mm) F. PROGRAMMABLE SOLENOID VALVE

**90826**

Can be installed directly on the tap or water well outlet. Protected by 100% sealed cover operates also in total submersion. Easy to program with three keys only. Irrigation time from 1 min to 23 h. 59 min. With option of up to 6 irrigation cycles per day. Manual and weekly programming with exclusion of specific weekdays as required. Bistable 9 V solenoid with low power consumption. Operates with a 9 V battery, sufficient for an entire season. Electronic section separable from hydraulic section for easy programming or storage during winter. Operating pressure from 0,5 to 12 bar. 1" (26-34 mm) female inlet and outlet thread. Flow rate from 4,6 to 96 l/min. Operating temperature range +5° to +70°.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet
90826		1	18,7 x 19,5 x 11	18 x 10,5 x 19	0,003	0,88	144

# SOLENOID VALVES

This range of solenoid valves is reliable and long-lasting, thanks to the materials they are made of: metal parts are made of stainless steel and the body of nylon reinforced with glass fibre. 100% tried and tested, even at high pressure, they feature a manual opening/shut-off and solenoid rotation control. With a slow shut-off device to prevent pressure shock, solenoid valves have an operating pressure of 0.5-12 bar. Thanks to the new solenoid fitted with an anti-sand filter, which collects the impurities in the water and filters them from the irrigation circuit, Claber solenoid valves are top of the range.

## 9 V - 1" (26-34 mm) FEMALE SOLENOID VALVE

**90812**

Solenoid valve equipped with solenoid with anti-sand filter. Works with the Multipla 9V timer (cod. 8060) or with the 9V control unit (cod. 90821). With 1" (26-34 mm) female inlet and outlet thread. Body in fibre glass reinforced nylon, stainless steel metal components. Low speed shut-off device to prevent pressure shock. Optional manual opening/shut-off control. Operating pressure from 0,5 to 12 bar. Flow rate from 4,6 to 96 l/min. Operating temperature range +5° to +70°.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet

# POP-UP SPRINKLERS

From Claber years of professional experience comes the pop-up sprinkler range. Designed and created to solve all your watering needs, these sprinklers are simple to use, while offering exclusive functional features. Claber pop-up come with 90°, 180° or 360° jets, or adjustable 0-350° jets. For long, narrow spaces there are square or rectangular area pop-up sprinklers. The jet can be easily adjusted at any time, using any standard hex key.

# TURBINES

Claber's range of turbine sprinklers is carefully designed to best meet the irrigation needs of medium-sized and large gardens. Total reliability, versatility of use and silence during operation make the Claber turbines the ideal solution for professional quality DIY systems. The many regulation options, from the angle of rotation to the range of the jet, ensure the best irrigation efficiency.

HOLE FOR INSERTING LIFTING KEY

ANGLE OF ROTATION ADJUSTMENT

INTERCHANGEABLE NOZZLE

HYDRAULIC MOTOR

STAINLESS STEEL RETURN SPRING

BODY AND ROD MADE  
OF SHOCK-RESISTANT  
PLASTIC (ABS)

WASHABLE FILTER

## MEDIUM-JET TURBINE SPRINKLER

90474

40°-360°

Medium-jet turbine sprinklers with interchangeable nozzles. A working range that can be adjusted from 40° to 360°, with just a simple flat head screwdriver, a pointer on the lid showing the selected work arc. The sprinkler can be regulated before installation, after installation in a static position, or during operation. A special mechanism avoids damage to the gears during regulation. Internal removable filter. Running pressure from 1.5 to 4 bars. Radius from 4 to 9 m. 1/2" (15-21 mm) screw base. Height from ground 4" (10 cm). Packs of 12 pcs. Irrigated area max. 254 m².

## MULTI-JET TURBINE WITH LONG JET RANGE

90480

40°-360°

Turbine sprinkler with 4 built-in nozzles to ensure uniform irrigation at any operating angle (adjustable between 40°-360°). Use a common screwdriver to select which nozzle to use, set the working angle and adjust the flow. Special nozzles to ensure maximum efficiency and water savings. Excellent performance, even at low pressure. Internal filter. Recommended operating pressure between 2 and 5 bar. Radius between 9.8 and 11.0 m. 3/4" (20-27 mm) female threaded base, height from ground 5" (12,5 cm). Irrigated area max. 580 m².

# UNDERGROUND ACCESSORIES

Valve boxes, pipes, connectors and accessories: there are the different components that make up an underground system. Claber means quality, durability and reliability in every detail, to ensure that your plants and lawn are always watered efficiently, at the right time and without wasting water. The Claber range also includes a sensor that stops the irrigation programme when it rains and then resumes it when the good weather returns, saving precious water.

## ACCESSORIES

Everything you need

T 1" (26-34 mm) F. x 1" (26-34 mm) F. x 1" (26-34 mm) M.

**90808**

For connecting solenoid valves in series; o-ring seal.

### DRAINAGE VALVE

**90910**

For automatic circuit draining. Especially useful in areas with cold winters.  
Bronze with 1/2" (15-21 mm) male thread and 3/4" (20-27 mm) adaptor.  
Header bag of 1 pc.

# COMPRESSION CONNECTORS AND PIPES

Available in 20, 25 and 32 mm version, the range of pipes and connectors adapts to the size of your garden for made-to-measure solutions.

These compression fittings guarantee a perfect, watertight connection, and the extensive range means you can connect up to any water outlet, branch off from the irrigation line and install any pop-up sprinklers.

## PE TUBE Ø 20 mm

**90372**

**90373**

Coils of PFA6 polyethylene tube for compression connectors. Flexible. Resistant to algae formation and low temperatures.

90372 - 15 m  
90373 - 25 m

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet

3/4" (20-27 mm) THREAD

90421

For connecting a polyethylene tube to a female 3/4" (20-27 mm) threaded water supply or solenoid valve.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
90421		15	5,2 x 7,05 x 5,2	10 x 39 x 13	0,005	0,81	1920	8 000625 904211

COUPLING Ø 25 mm

90419

For connecting two polyethylene tubes or repairing a punctured tube.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
90419		9	5,2 x 10,2 x 5,2	10 x 39 x 13	0,005	0,82	1152	8 000625 904198

ELBOW CONNECTOR  
Ø 25 mm

90417

For joining two polyethylene tubes at right angle.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
90417		7	5,2 x 10 x 5,2	10 x 39 x 13	0,005	0,73	896	8 000625 904174

"T" Ø 25 mm CONNECTORS

90422

For connecting three polyethylene tubes to create a branch off.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
90422		4	5,2 x 7,5 x 5,2	10 x 39 x 13	0,005	0,64	512	8 000625 904228

**ELBOW Ø 25 mm  
F. 3/4" (20-27 mm) THREAD****90423**

For connecting a threaded coupling or drainage valve to the end of the line.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
90423		12	8,9 x 7,5 x 5,2	10 x 39 x 13	0,005	0,83	1536	8 000625 904235

**"T" Ø 25 mm 3/4" (20-27 mm)  
THREAD****90418**For installation on main polyethylene tube after cutting and joining two tube sections.  
With 3/4" (20-27 mm) female thread.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
90418		6	16,5 x 8,3 x 6,2	10 x 39 x 13	0,005	0,75	768	8 000625 904181

**ELBOW CONNECTOR Ø 25 mm  
F. 1/2" (15-21 mm) THREAD****90427**For installation on main polyethylene tube after cutting and joining two tube sections.  
Used with 1/2" (15-21 mm) threaded extension.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
90427		7	5,2 x 11,5 x 5,2	10 x 39 x 13	0,005	0,75	896	8 000625 904273

**END-OF-LINE PLUG Ø 25 mm****90425**

For closing off one end of the polyethylene tube.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
90425		15	5,2 x 5,9 x 5,2	10 x 39 x 13	0,005	0,77	1920	8 000625 904259

**Ø 20 mm - Ø 25 mm  
COUPLING****90428**

To connect two polyethylene hoses of different diameters, Ø 20 and 25 mm.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet	
90428		12	5,1 x 9,5 x 5,1	10 x 39 x 13	0,005	0,73	1536	8 000625 904280

**CONNECTOR Ø 32 mm**  
**F. 3/4" (20-27 mm) THREAD**

**90274**

For connecting a polyethylene tube to a 3/4" (20-27 mm) threaded tap or solenoid valve with male 3/4" (20-27 mm) thread.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet

# A PROFESSIONAL RANGE

The quality and simplicity of Claber products are what make them the ideal solution for professionals too.

There is an entire range of underground irrigation products.

Turbine sprinklers, solenoid valves, timers and original solutions like Hydro-4, the pit equipped with a battery-operated timer and 4 solenoid valves, and Aqua-Radio, used to manage irrigation remotely via radio frequency.

Take underground irrigation anywhere. Guaranteed customer satisfaction.

## AQUA-RADIO RF

Radio-controlled irrigation

The Aqua-Radio remote control system allows you to manage the programmable solenoid valves and control units via radio frequency. You can programme irrigation and check the battery charge remotely, without needing to even lift the cover over the pit.

5 PRACTICAL BUTTONS AND A LARGE DISPLAY  
MAKE PROGRAMMING  
QUICK AND EASY

VIDEO

THE PROGRAMMABLE SOLENOID VALVES  
AND CONTROL UNITS  
ARE FULLY WATERTIGHT

## RF REMOTE CONTROL 2 UNITS

**8347**

Radio frequency remote control operating 1 or 2 control units.

Featuring just 5 buttons, for easy programming. Powered by two 1.5V AAA alkaline batteries, which will last an entire season.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet
8347		1	19,5 x 14,5 x 9	19,5 x 14,5 x 9	0,003	0,30	8 000625 083473

## RF REMOTE CONTROL 6 UNITS

**8348**

Radio frequency remote control operating up to 6 control units.

Featuring just 5 buttons, for easy programming

Powered by two 1.5V AAA alkaline batteries, which will last an entire season.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet
8348		1	19,5 x 14,5 x 9	19,5 x 14,5 x 9	0,003	0,30	8 000625 083480

## RF UNIT

**8321**

Control unit for expansion of radio-controlled irrigation system. Operated by RF remote control, not included.

Can operate up to 4 independent 9V bistable solenoid valves (90812-90813). A perfectly sealed IP68 unit, which can be installed directly inside the valve box. Powered by two 1.5V AAA alkaline batteries, which will last an entire season.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet
8321		1	19 x 19,5 x 11	19 x 19,5 x 11	0,004	0,68	8 000625 083213

## 1" M. RF PROGRAMMABLE SOLENOID VALVE

**8323**

Radio frequency programmable solenoid valve. Operates in connection with RF remote control, not included. RF coverage up to 30 m. Installed directly onto the water tap or water well outlet underground.

Completely watertight cover, able to withstand even total submersion. IP 68 certification: the highest level of protection against immersion and direct water sprays. Powered by 2 x 1.5 V AAA alkaline batteries, which will last an entire season.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet
8323		1	19 x 19,5 x 11	19 x 19,5 x 11	0,004	0,89	8 000625 083237

## HYDRO-4 RF

**90839**

Preassembled valve box incorporating 4 solenoid and a timer. Operates in connection with RF remote control, not included. Power provided by two 1.5V AAA batteries, enough to last an entire season. On/off control for up to 4 independent underground or drip irrigation lines. Easy programming procedure, using just 3 buttons and a large size display. A perfectly sealed IP 68 unit. Wireless connection to radio frequency Rain Sensor.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet
90839		1	25 x 23 x 17	25 x 23 x 17	0,010	2,41	8 000625 908394

## METEOCOMETA 6

8017

A professional interactive timer which is specific to underground irrigation, drip irrigation and micro-irrigation. Manage up to 6 zones, with two independent programmes: A and B. Up to 4 starts per day per programme. Duration of irrigation: from 1 minute to 4 hours and 15 minutes. Weekly cyclical programming up to 12 days or on odd/even days. Water Budget, Rain Stop and test functions. Internal transformer 230/24V, 50/60 Hz, 24V. Meteocometa is equipped with an internal capacitor (SuperCap), which stores energy when the timer is operating normally. This means it retains the timer settings, should the electrical power supply temporarily fail (saved in the memory for up to 2 days). Rain Sensor connection possible.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet
8017		1	18 x 29 x 9,5	18 x 29 x 9,5	0,005	1,31	8 000625 080175

## METEOPRAGMA 12

8107

A professional interactive timer which is specific for underground irrigation, drip irrigation and micro-irrigation. Ideal for watering large residential or public green spaces, as well as sports grounds. It can manage up to 12 zones with 3 independent programmes and 4 different starts per programme. Duration of irrigation: from 1 minute to 4 hours and 15 minutes. Weekly cyclical programming up to 12 days or on odd/even days. Water Budget, Rain Stop and test functions. Internal transformer 230/24V, 50/60 Hz, 24VA. Meteopragma is equipped with an internal capacitor (SuperCap), which stores energy when the timer is operating normally. This means it retains the timer settings, should the electrical power supply temporarily fail (saved in the memory for up to 2 days). Rain Sensor connection possible.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet
8107		1	29,5 x 24,5 x 9,5	29,5 x 24,5 x 9,5	0,007	1,53	8 000625 081073

## RAIN SENSOR

90916

Suitable for all watering systems, the rain sensor avoids unnecessary wastage of water by turning the sprinklers off when it is raining. When the internal flow reaches a level of 5 mm of rain per square metre, the system shuts down. Programmed watering automatically resumes when the water in the sensor evaporates. The rain sensor should be installed in an outdoor area exposed to rain using the stainless steel bracket provided.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet
90916		1	19 x 10 x 13	19 x 10 x 13	0,002	0,21	8 000625 909162

**24 V - 1" FEMALE SOLENOID VALVE****90938**

Solenoid with silt filter. Reinforced structure to withstand mechanical and thermal stresses. Operates with all types of multi-line timers at 24 V AC. With 1" female inlet and outlet thread. Body in fibre glass reinforced nylon, stainless steel metal components. Low speed shut-off device to prevent pressure shock. Optional manual opening/shut-off control. Operating pressure from 0,5 to 12 bar. Flow rate from 4,6 to 96 l/min. Operating temperature range +5° to +70°.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet
90938		12		28 x 19 x 25	0,013	4,54	8 000625 909384

**24 V - 1" MALE SOLENOID VALVE****90939**

Solenoid with silt filter. Reinforced structure to withstand mechanical and thermal stresses. Operates with all types of multi-line timers at 24 V AC. With 1" male inlet and outlet thread. Body in fibre glass reinforced nylon, stainless steel metal components. Low speed shut-off device to prevent pressure shock. Optional manual opening/shut-off control. Operating pressure from 0,5 to 12 bar. Flow rate from 4,6 to 96 l/min. Operating temperature range +5° to +70°.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet
90939		12		28 x 19 x 25	0,013	4,36	8 000625 909391

**9 V - 1" FEMALE SOLENOID VALVE****90941**

Solenoid with silt filter. Works with the Multipla 9 V timer (cod. 8060) or with the 9 V control unit (cod. 90821). With 1" female inlet and outlet thread. Body in fibre glass reinforced nylon, stainless steel metal components. Low speed shut-off device to prevent pressure shock. Optional manual opening/shut-off control. Operating pressure from 0,5 to 12 bar. Flow rate from 4,6 to 96 l/min. Operating temperature range +5° to +70°.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet
90941		12		28 x 19 x 25	0,013	4,54	8 000625 909414

**9 V - 1" MALE SOLENOID VALVE****90940**

Solenoid with silt filter. Works with the Multipla 9 V timer (cod. 8060) or with the 9 V control unit (cod. 90821). With 1" male inlet and outlet thread. Body in fibre glass reinforced nylon, stainless steel metal components. Low speed shut-off device to prevent pressure shock. Optional manual opening/shut-off control. Operating pressure from 0,5 to 12 bar. Flow rate from 4,6 to 96 l/min. Operating temperature range +5° to +70°.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet
90940		12		28 x 19 x 25	0,013	4,36	8 000625 909407

**24 V AC SOLENOID WITH WIRES****90943**

Spare solenoid with wires, 24 V or bistable 9 V model.

**9 V DC SOLENOID WITH WIRES****90942**

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet
90943		1				0,12	8 000625 909438
90942		1				0,12	8 000625 909421

## CONTROL UNIT

**8188**

From a field station, the unit will pilot the opening and closing movements of one or two 9V bistable solenoid valves installed in valve boxes.  
Connected to a RAIN SENSOR (CODE 90915), the unit will suspend watering operations in the event of rainfall greater than 5 mm per square metre.  
The control unit can be wall-mounted, using a special bracket, for ease of programming and practical maintenance.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet
8188		6		30 x 14 x 25	0,01	2,84	

## FARM CONTROL UNIT

**8191**

This unit manages remote opening/closing of a 9V bistable solenoid valve located in a valve box.  
A special bracket enables the wall-mounting of the control unit, for ease of programming and maintenance.  
It is powered by a 9V battery.  
Annual programming (365 days). Duration of irrigation: from 1 minute to 23 hours and 59 minutes, one irrigation cycle per day. Manual opening/closing function which can be modified, as can the irrigation time.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet
8191		6		30 x 14 x 25	0,01	2,69	

## 1" F. PROGRAMMABLE SOLENOID VALVE

**90928**

Can be installed directly on the tap or water well outlet.  
Protected by 100% sealed cover operates also in total submersion.  
Easy to program with three keys only.  
Irrigation time from 1 min to 23 h. 59 min.  
With option of up to 6 irrigation cycles per day.  
Manual and weekly programming with exclusion of specific weekdays as required.  
Bistable 9 V solenoid with low power consumption.  
Operates with a 9 V battery, sufficient for an entire season.  
Electronic section separable from hydraulic section for easy programming or storage during winter.  
Operating pressure from 0,5 to 12 bar.  
1" female inlet and outlet thread.  
Flow rate from 4,6 to 96 l/min. Operating temperature range +5° to +70°.

code	packaging	qty	pack size (cm)	box size (cm)	volume (m <sup>3</sup> )	weight (kg)	pcs/pallet
90928		6		30 x 16 x 25	0,012	4,42	

### ADJUSTABLE POP-UP 0°-350° 6 L/MIN - 2"

**90000**

A professional-quality static pop-up sprinkler with an adjustable head from 0° to 350°, that guarantees even irrigation and minimal water consumption (6 l/min). It is equipped with a screw to adjust the jet with a hexagonal insert, stainless steel return spring, filter, self-lubricating clutch and non-spill rubber valve with an anti-freeze device. Height from ground 2" (5 cm).

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet
90000		100		27 x 25 x 24	0,016	5,02	

### ADJUSTABLE POP-UP 0°-350° 10 L/MIN - 2"

**90001**

A professional-quality static pop-up sprinkler with an adjustable head from 0° to 350°, that guarantees even irrigation and minimal water consumption (10 l/min). It is equipped with a screw to adjust the jet with a hexagonal insert, stainless steel return spring, filter, self-lubricating clutch and non-spill rubber valve with an anti-freeze device. Height from ground 2" (5 cm).

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet
90001		100		27 x 25 x 24	0,016	4,98	

### ADJUSTABLE POP-UP 0°-350° 6 L/MIN - 4"

**90015**

A professional-quality static pop-up sprinkler with an adjustable head from 0° to 350°, that guarantees even irrigation and minimal water consumption (6 l/min). It is equipped with a screw to adjust the jet with a hexagonal insert, stainless steel return spring, filter, self-lubricating clutch and non-spill rubber valve with an anti-freeze device. Ground height of 4" (10 cm).

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet
90015		50		27 x 19 x 24	0,012	3,30	

### ADJUSTABLE POP-UP 0°-350° 10 L/MIN - 4"

**90016**

A professional-quality static pop-up sprinkler with an adjustable head from 0° to 350°, that guarantees even irrigation and minimal water consumption (10 l/min). It is equipped with a screw to adjust the jet with a hexagonal insert, stainless steel return spring, filter, self-lubricating clutch and non-spill rubber valve with an anti-freeze device. Ground height of 4" (10 cm).

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)	pcs/pallet
90016		50		27 x 19 x 24	0,012	3,30

## MEDIUM-JET TURBINE SPRINKLER

**90152**

Medium-jet turbine sprinklers with interchangeable nozzles.  
A working range that can be adjusted from 40° to 360°, with just a simple cross-head screwdriver, a pointer on the lid showing the selected work arc.  
The sprinkler can be regulated before installation, after installation in a static position, or during operation.  
A special mechanism avoids damage to the gears during regulation. Internal removable filter.  
Running pressure from 1.5 to 4 bars. Radius from 4 to 9 m. 1/2" screw base.  
Height from ground 4" (10 cm).  
Packs of 25 pcs.  
Irrigated area max 254 m<sup>2</sup>.

# MERCHANDISING

With Claber, it is easy to turn any shop into a specialist irrigation centre.

Claber enlarges its range of display boxes with the the new targeted display solutions for Claber water timers as well as for drip irrigation kits and the new Happy Fresh cooling systems.

## MULTI BOX

9447

NEW FOR 2023

Multi Box is the most versatile and immediate solution for "out of gondola unit" display use. Made from strong cardboard, contained in a compact pack and easy to assembly, it consists of a base and a number of stackable containers, ready to hold most Claber products.

Stand measurements: 55 x 40 x 140 cm

code	packaging	qty	pack size (cm)
9447		1	40 x 100 x 9
box size (cm)	volume (m³)	weight (kg)	
40 x 100 x 9	0,036	4,80	

## VISUAL BOX

9449

NEW FOR 2023

The new floor-stand display Visual Box has three large clear PVC drawers, each one divided into two compartments, to double your options when it comes to displaying Claber products effectively: from connectors to couplings, and spray nozzles to pistols and sprinklers. The stand is pre-assembled and ready to use right away.

Stand measurements: 40 x 39 x 150 cm

code	packaging	qty	pack size (cm)
9449		1	40 x 39 x 120
box size (cm)	volume (m³)	weight (kg)	
40 x 39 x 120	0,190	5,40	

## ESPO PROMO MONOFACE

9454

NEW FOR 2023

Display stand specifically for off-gondola promotion of blister packs, including small items. High visibility of product. Solid hardboard back. Hook positioning flexible and customizable. Supplied with hooks. Easy to assemble. Small pack size.

Stand measurements: 57 x 38 x 184 cm

code	packaging	qty	pack size (cm)
9454		1	59 x 39 x 98
box size (cm)	volume (m³)	weight (kg)	
59 x 39 x 98	0,225	7,00	

## ESPO AQUAUNO 9548

This is a specific "off-gondola" stand for displaying the water timers of the Aquauno, Aquauno Plus and Aquadue Duplo Evolution range. Made entirely of cardboard and supplied empty and unassembled in a compact package, Esposito Aquauno is very easy to put up and ready to use immediately. Printed in four colours, it features coordinated graphics and two interchangeable crowners: one dedicated to the new Aquauno Mist timer (code 8496), the other suitable for all the other Claber timers.

Three different filling options:

- Aquauno timers: 30 pcs (3 x 10 pcs)
- Aquauno Plus timers: 24 pcs (3 x 8 pcs)
- Aquadue Duplo timer: 24 pcs (3 x 8 pcs)

Stand measurements: 32 x 38,5 x 133 cm

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)
9548		1	87 x 76 x 5	87 x 76 x 5	0,030	3,80

## ESPO KIT 9549

One "off-gondola" stand suitable for displaying Claber drip irrigation kits, Aqua-Magic Systems and the new Happy Fresh cooling system kits.

Made entirely of cardboard and supplied empty and unassembled in a compact package, Esposito Kit is very easy to put up and ready to use immediately. Printed in four colours, it features coordinated graphics and three interchangeable crowners: one dedicated to drip irrigation kits, one for Aqua-Magic System and another for the Happy Fresh cooling system.

Different filling options:

- 8063: 10 pcs (2 x 5 pcs)
- 90751: 16 pcs (2 x 8 pcs)
- 90752: 10 pcs (2 x 5 pcs)
- 90753: 10 pcs (2 x 5 pcs)
- 90763: 10 pcs (2 x 5 pcs)
- 90766: 10 pcs (2 x 5 pcs)
- 90759: 10 pcs (2 x 5 pcs)
- 90764: 16 pcs (2 x 8 pcs)

Stand measurements: 32 x 38,5 x 133 cm

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)
9549		1	87 x 76 x 5	87 x 76 x 5	0,030	3,60

## ESPO TOP-LIGHT 9556

New stand to display Top-Light, Claber's new light hoses, off the counter. Made entirely of cardboard and supplied empty and unassembled in a compact package, Esposito Top-Light is very easy to put up and ready to use immediately. Printed in four colours, it features coordinated graphics and clear information, for effective communication of the main benefits of the product directly at the sales point. QR code that refers back to dedicated site [www.top-light.it](http://www.top-light.it).

Three different filling options:

- Top-Light 10 m – 9340: 32 pcs
- Top-Light 15 m – 9341: 24 pcs
- Top-Light 25 m – 9342: 12 pcs

Stand measurements: 60 x 40 x 116 cm

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)
9556		1	75 x 110 x 10	75 x 110 x 10	0,08	5

DISPLAY BOX (3 PCS.)

8849

Claber's new display unit-dispensers for loose products allow a tidy, linear presentation of store shelf and rack references.

Stand measurements: 37 x 20 x 35 cm

code	packaging	qty	pack size (cm)	box size (cm)	volume (m³)	weight (kg)
8849		1	60 x 55 x 2,5	60 x 55 x 2,5	0,008	1,50

CLABER GUIDE

9485

SHOPPER

9106

# SALES POINTS: THE CLABER AISLE NEVER GOES UNNOTICED

In stores, on the aisles devoted to gardening, Claber products catch the attention and are easy to recognise at a glance.

Pleasing colours and graphics full of impact distinguish between the three ranges dedicated to drip, above-ground and underground irrigation. The arrangement of the products and the design of the packaging direct the consumer to choose the correct product and help create a system that's a perfect size for their requirements. An additional bonus that starts in store is a space that's beautiful to look at and easy to manage.

ABOVE-GROUND IRRIGATION

DRIP IRRIGATION
